Lin,2019-09-19 Learning English and Chinese is becoming increasingly important to the prospects of young people This book compares English as a Foreign Language teaching in Taiwan with Chinese as a Foreign Language education in England in order to highlight how classroom activities are embedded within multiple settings including ethnic or other social group cultures family and community resources and school visions or goals The book illustrates how in Taiwan different ethnic groups recognise access and value English language learning to varying extents Its findings illuminate why some ethnic groups are highly motivated to learn English and are able to gain privileged economic positions in the job market In England access to Chinese is marked by social class and the book argues that this could augment an educational apartheid that already exists in language teaching in secondary schools thereby exacerbating existing inequality *Proceedings of the National Science Council* ,1977 Psychopharmacology of Neurologic Disease ,2019-11-12 Psychopharmacology of Neurologic Disease Volume 165 in the Handbook of Clinical Neurology series provides clinicians with an up to date critical review of the best approaches to treatment of neurologic disease as discussed by experienced clinical investigators The book is organized into sections on dementia delirium movement disorders hereditary degenerative disease epilepsy and
