*Congressional Record* , **State against Civil Society** Cameron Ross,2017-10-02 Over the period December 2011 July 2013 a tidal wave of mass protests swept through the Russian capital and engulfed scores of cities and regions These demonstrations came as a great shock to the Russian political establishment After decades of passive acceptance of the status quo it appeared that civil society was at last awakening The protests came in the wake of the Arab Spring revolts which toppled authoritarian dictators in Tunisia Egypt and Libya However by the end of 2013 the number of mass protests in Russia and their size had declined precipitously President Putin on returning to office in 2012 had quickly regained the upper hand over the protestors This book examines the reasons for the rise and fall of the mass protests in the Russian Federation Internationally renowned experts in the field of Russian politics from Russia and the UK provide important new insights into the nature of the mass opposition movement the non systemic opposition its strengths and its weaknesses A key novel aspect of the study is its focus on the national and regional dimensions of the protest movement and its class and ethnic dimensions This book was published as a special issue of Europe Asia Studies **The Banisters of Rhode Island in the American Revolution** Marian Mathison Desrosiers,2020-12-25 When Thomas Banister fought for the British during the American Revolution his farm and business were confiscated He was exiled in far off Nova Scotia before he returned to a secluded life on Long Island His older brother John Banister married with a child swore allegiance to the United Colonies then witnessed the destruction of his Newport lands by the British Army Convinced British laws supported remuneration John left for England where he sought justice for four years His wife Christian Stelle Banister managed the family property and raised their son while the state threatened confiscation and the French Army lived in Newport Tracing the lives of three young Americans during the Revolution this study of the Banister family of Rhode Island contributes to an understanding of the war s effects on the lives of ordinary people A Global Idea Mayssoun Sukarieh,2023-08-15 A Global Idea outlines how youth as shown by the Arab Spring uprisings and subsequent state responses became a prominent social and political category during the first two decades of the twenty first century in the Middle East Drawing on ethnographic fieldwork interview data and textual analysis Mayssoun Sukarieh explains that the spread of youth as an important category is linked to the operation of a global youth development complex a diverse transnational network of state private sector civil society and international development aid organizations that worked through key urban areas such as Washington DC Amman and Dubai In its analysis of the arrival extension and embedding of the youth development complex in the Middle East during this period A Global Idea addresses a broader question that is of global and not just regional concern How are certain ideas that are central to the working and reproduction of global capitalism able to travel the world so that they are found virtually everywhere **Structural Racism** Stephen Menendian,2025-06-30 This book explains how racial inequality in the United States is produced and perpetuated and what should be done about it It develops the elusive concept of structural racism

presenting a precise definition that is clear and comprehensible and illustrates how it operates methodically and rigorously. Many other books are long on problems and short on solutions whereas this book develops the key principles that must ground a structural reform agenda and then presents a broad ranging set of interventions organized around ten themes that will reduce racial disparities while expanding opportunity for all. Unlike most books on race which focus on a particular issue or sector this book is comprehensive in its scope encompassing the vital systems that shape racial inequality in contemporary American society from education and public schools to income and wealth disparities to housing and health care to policing and the criminal justice system. As such this book is the ideal text for readers seeking to learn more about structural racial inequality in society how it came to be that way and what we should do about it while deepening our understanding and challenging many misguided or simplistic prevailing notions. In a time of backlash to racial justice and growing doubts about racial equity initiatives this book is a timely and necessary entry. A must read for advocates students policymakers and researchers alike.

*Excluded* Richard D Kahlenberg, 2023-07-11. An indictment of America's housing policy that reveals the social engineering underlying our segregation by economic class the social and political fallout that result and what we can do about it. The last acceptable form of prejudice in America is based on class and executed through state sponsored economic discrimination which is hard to see because it is much more subtle than raw racism. While the American meritocracy officially denounces prejudice based on race and gender it has spawned a new form of bias against those with less education and income. Millions of working class Americans have their opportunity blocked by exclusionary snob zoning. These government policies make housing unaffordable frustrate the goals of the civil rights movement and lock in inequality in our urban and suburban landscapes. Through moving accounts of families excluded from economic and social opportunity as they are hemmed in through new redlining that limits the type of housing that can be built Richard Kahlenberg vividly illustrates why America has a housing crisis. He also illustrates why economic segregation matters since where you live affects access to transportation employment opportunities decent health care and good schools. He shows that housing choice has been socially engineered to the benefit of the affluent and that astonishingly the most restrictive zoning is found in politically liberal cities where racial views are more progressive. Despite this there is hope. Kahlenberg tells the inspiring stories of growing number of local and national movements working to tear down the walls that inflicts so much damage on the lives of millions of Americans.

*From Head Shops to Whole Foods* Joshua C. Davis, 2017-08-08. In the 1960s and 70s a diverse range of storefronts including head shops African American bookstores feminist businesses and organic grocers brought the work of the New Left Black Power feminism environmentalism and other movements into the marketplace. Through shared ownership limited growth and democratic workplaces these activist entrepreneurs offered alternatives to conventional profit driven corporate business models. By the middle of the 1970s thousands of these enterprises operated across the United States but only a handful survive today. Some such as Whole Foods Market have abandoned their quest for

collective political change in favor of maximizing profits Vividly portraying the struggles successes and sacrifices of these unlikely entrepreneurs From Head Shops to Whole Foods writes a new history of social movements and capitalism by showing how activists embraced small businesses in a way few historians have considered The book challenges the widespread but mistaken idea that activism and political dissent are inherently antithetical to participation in the marketplace Joshua Clark Davis uncovers the historical roots of contemporary interest in ethical consumption social enterprise buying local and mission driven business while also showing how today s companies have adopted the language but not often the mission of liberation and social change     The Northwestern Miller ,1908     **Weekly Statistical Sugar Trade Journal** ,1908     Finance Chronicle and Insurance Circular ,1895     *Dictionary Catalog of the Research Libraries of the New York Public Library, 1911-1971* New York Public Library.
