Breaking Point Rebecca Schwartz Greene,2023-01-03 WINNER SOCIETY FOR MILITARY HISTORY DISTINGUISHED BOOK AWARDS FIRST BOOK This book informs the public for the first time about the impact of American psychiatry on soldiers during World War II Breaking Point is the first in depth history of American psychiatry in World War II Drawn from unpublished primary documents oral histories and the author's personal interviews and correspondence over years with key psychiatric and military policymakers it begins with Franklin Roosevelt's endorsement of a universal Selective Service psychiatric examination followed by Army and Navy pre and post induction examinations Ultimately 2.5 million men and women were rejected or discharged from military service on neuropsychiatric grounds Never before or since has the United States engaged in such a program In designing Selective Service Medical Circular No 1 psychiatrist Harry Stack Sullivan assumed psychiatrists could predict who might break down or falter in military service or even in civilian life thereafter While many American and European psychiatrists questioned this belief and huge numbers of American psychiatric casualties soon raised questions about screening's validity psychiatric and military leaders persisted in 1942 and 1943 in endorsing ever tougher screening and little else Soon families complained of fathers and teens being drafted instead of being identified as psychiatric 4Fs and Blacks and Native Americans among others complained of bias A frustrated General George S Patton famously slapped two malingering neuropsychiatric patients in Sicily a sentiment shared by Marshall and Eisenhower though they favored a tamer style Yet psychiatric rejections evacuations and discharges mounted While psychiatrist Roy Grinker and a few others treated soldiers close to the front in Tunisia in early 1943 this was the exception But as demand for manpower soared and psychiatrists finally went to the field and saw that combat itself not predisposition precipitated breakdown leading military psychiatrists switched their emphasis from screening to prevention and treatment But this switch was too little too late and slowed by a year long series of Inspector General investigations even while numbers of psychiatric casualties soared Ironically despite and even partly because of psychiatrists wartime performance plus the emotional toll of war postwar America soon witnessed a dramatic growth in numbers popularity and influence of the profession culminating in the National Mental Health Act 1946 But veterans with PTSD not recognized until 1980 were largely neglected

Despite The State: Why India Lets Its People Down And How They Cope M. Rajshekhar,2024-03 About the Book A LUCID NECESSARY ACCOUNT OF HOW DRASTICALLY THE INDIAN STATE FAILS ITS CITIZENS The story of democratic failure is usually read at the level of the nation while the primary bulwarks of democratic functioning the states get overlooked This is a tale of India's states of why they build schools but do not staff them with teachers favour a handful of companies so much that others slip into losses

wage water wars with their neighbours while allowing rampant sand mining and groundwater extraction harness citizens right to vote but brutally crack down on their right to dissent Reporting from six states over thirty three months award winning investigative journalist M Rajshekhar delivers a necessary account of a deep crisis that has gone largely unexamined

Nations Apart Radka ^D%Sustrová,2024-02-16 Nations Apart reconsiders the Nazi occupation of Bohemia and Moravia during World War II The dismemberment of Czechoslovakia after the 1938 Munich Agreement is typically recalled in Czech historical memory as the beginning of a period of humiliation occupation and resistance Against this narrative of victimhood %Sustrov argues that the Nazi Protectorate of Bohemia and Moravia witnessed the unexpected expansion of the Czech welfare state a process driven by local nationalisms and which in turn contributed inadvertently to the stability of Nazi governance Through extensive research in Czech German and Swiss archives Nations Apart demonstrates that ethnically exclusive Czech national ideology dominated politics and everyday life during Nazi rule Illustrating similarities between the wartime Protectorate and the occupation regimes in Western Europe %Sustrov sheds new light on occupied societies during WWII and on the ambiguous origins of welfare states in post war Europe *After the Education Wars* Andrea Gabor,2018-06-12 The education wars have been demoralizing for teachers After the Education Wars helps us to see a better way forward Cathy N Davidson The New York Times Book Review After the Education Wars is an important book that points the way to genuine reform Diane Ravitch author of Reign of Error and The Death and Life of the Great American School System A bestselling business journalist critiques the top down approach of popular education reforms and profiles the unexpected success of schools embracing a nimbler more democratic entrepreneurialism In an entirely fresh take on school reform business journalist and bestselling author Andrea Gabor argues that Bill Gates Eli Broad and other leaders of the prevailing education reform movement have borrowed all the wrong lessons from the business world After the Education Wars explains how the market based measures and carrot and stick incentives informing today s reforms are out of sync with the nurturing culture that good schools foster and contrary to popular belief at odds with the best practices of thriving twenty first century companies as well These rich detailed stories of real reform in action illustrate how enduring change must be deeply collaborative and relentlessly focused on improvement from the grass roots up lessons also learned from both the open source software and quality movements The good news is that solutions born of this philosophy are all around us from Brockton Massachusetts where the state s once failing largest high school now sends most graduates to college to Leander Texas a large district where school improvement spurred by the ideas of quality guru W Edwards Deming has become a way of life A welcome exception to the doom and gloom canon of education reform After the Education Wars makes clear that what s needed is not more grand ideas but practical and informed ways to grow the best ones that are already transforming schools **Reimagining Industrial Sites** Catherine Heatherington,2017-12-06 The discourse around derelict former industrial and military sites has grown in recent years This interest is not only theoretical and landscape professionals

are taking new approaches to the design and development of these sites This book examines the varied ways in which the histories and qualities of these derelict sites are reimagined in the transformed landscape and considers how such approaches can reveal the dramatic changes that have been wrought on these places over a relatively short time scale It discusses these issues with reference to eleven sites from the UK Germany the USA Australia and China focusing specifically on how designers incorporate evidence of landscape change both cultural and natural There has been little research into how these developed landscapes are perceived by visitors and local residents This book examines how the tangible material traces of pastness are interpreted by the visitor and the impact of the intangible elements hidden traces experiences and memories The book draws together theory in the field and implications for practice in landscape architecture and concludes with an examination of how different approaches to revealing and reimagining change can affect the future management of the site

The State of Conservation Joshua Nygren, 2025-01-06 In the twentieth century natural resource conservation emerged as a vital force in US politics laying the groundwork for present day sustainability Merging environmental agricultural and political history Joshua Nygren examines the political economy and ecology of agricultural conservation through the lens of the conservation industrial complex This evolving public private network which united the US Department of Agriculture Congress local and national organizations and the agricultural industry guided soil and water conservation in rural America for much of the century Contrary to the classic tales of US environmental politics and the rise and fall of the New Deal Order this book emphasizes continuity Nygren demonstrates how the conservation policies programs and partnerships of the 1930s and 1940s persisted through the age of environmentalism and how their defining traits anticipated those typically associated with late twentieth century political culture The conservation industrial complex promoted a development oriented brand of conservation that aided the rise of large scale capital intensive agriculture which continues today It also reshaped the physical and political landscapes of the country leading to impressive conservation victories and spectacular failures by privileging some environments degrading others and intensifying farm depopulation In the name of environmental protection agricultural conservation made rural America less equal
