Social Reproduction John Fitz,Brian Davies,John Evans,2005-11-16 This book takes a theoretically informed look at British education policy over the last sixty years when secondary schooling for all children became an established fact for the first time Comprehensive schools largely replaced a system based on academic selection Now under choice and competition policies all schools are subject to the rigours of local education markets What impact did each of these successive policy frameworks have on structures of opportunities for families and their children How and to what extent was the experience of secondary school students shaped and what influenced the qualifications they obtained and their life chances after schooling

The authors locate their work within two broad strands in the sociology of education Basil Bernstein's work on the realisation of power and control in and through pedagogic discourse and social reproduction provides a theoretical framework for exploring the character of and continuities and change in education and training policies The book is an important contribution to debates about the extent to which education is a force for change in class divided societies The authors also set out to re-establish social class at the centre of educational analysis at a time when emphasis has been on identity and identity formation arguing for their interdependence This book will be an important resource for students policy analysts and policymakers wishing to think through and understand the longer term impact of programmes that have shaped secondary schooling in Britain and elsewhere Make Key Stage 3 Matter in English Liz Hillier, 2017-04-27 The KS3 curriculum plays a critical part in giving students the best possible start to their secondary education and preventing the need for intervention later on This timely book provides detailed guidance on how to develop a robust multifaceted inclusive and challenging KS3 curriculum in English that provides a secure and progressive link between KS2 and KS4 Featuring examples of curriculum models and audits of current practice chapters cover key topics such as developing the planning cycle transitioning between primary and secondary English assessment in KS3 English creating a model that supports and challenges students of all levels LAC and SPAG divisive or cohesive abbreviations speaking and listening in the KS3 English curriculum using multimodal texts examples of how meaningful homework can successfully embed itself in a KS3 English curriculum model Make Key Stage 3 Matter in English will be an invaluable resource for KS3 English coordinators teachers and all those involved in the planning and delivery of the KS3 English curriculum Parliamentary Debates (Hansard).
