and above Fiore Tartaglia, The fourth volume of this kata series expands and amplifies the broad spectrum of Bunkai the
 analysis and comprehension of a technique or kata the karate style Shotokan The main theme of this book is the master kata
 The applications presented here strictly adhering to the kata sequences offer the reader the possibility to attain exact and
 comprehensive interpretations of the complex higher level kata The book on a didactic basis supports the reader by providing
 tips for tactics principles and additional applications At a glance overview of all kata Supplementary explanations of difficult
 sections of kata Explanations of Japanese terms through graphics Additional detail drawings for difficult applications Concise
 drawings with all details From the contents In the Shotokan kata the style typical techniques are repeated from the first to
 the last kata again and again This is the right way to do it since as we all know one cannot practice enough if one wishes to
 master a technique completely For this reason there are many techniques in this book that have already been presented in
 the third volume in different interpretations But now those at higher levels are addressed and one can and must require more
 This is why some applications will differ from the kata techniques somewhat more than before The advantage is that
 additional applications are presented The dan holder having experience in karate will have no problem implementing the
 complex Bunkai techniques or expanding them with his own perceptions **Bibliographie de la France, Biblio** ,1976
