Les Sourds Existentiels:

The Social Condition of Deaf People Sara Trovato, Anna Folchi, 2022-05-09 This book is about the social condition of Deaf people told through a Deaf woman's autobiography and a series of essays investigating how hearing societies relate to Deaf people Michel Foucault described the powerful one as the beholder who is not seen This is why a Deaf woman's perspective is important Minorities that we don't even suspect we have power over observe us in turn Majorities exert power over minorities by influencing the environment and institutions that simplify or hinder lives language mindsets representations norms the use of professional power Based on data collected by Eurostat this volume provides the first discussion of statistics on the condition of Deaf people in a series of European countries concerning education labor gender This creates a new opportunity to discuss inequalities on the basis of data The case studies in this volume reconstruct untold moments of great advancement in Deaf history successful didactics supporting bilingualism the reasons why Deaf empowerment for and by Deaf people does and does not succeed A work of empowerment is effective if it acts on a double level the community to be empowered and society at large resulting in a transformation of society as a whole This book provides instruments to work towards such a transformation

Les Sourds existent-ils Bernard Mottez, 2006-02-01 L'auteur a consacré en précurseur ses travaux la surdit telle qu'elle est vécue telle que chacun d'entre nous peut en avoir l'expérience la surdit entendue dans un sens sociologique comme rapport ou plus exactement comme rupture dans un rapport La rupture se nourrit du déni de l'intolérance et du racisme vis-à-vis des Sourds au point de mettre en cause leur existence Cet ouvrage est le récit de ce combat collectif contre le déni dans lequel Bernard Mottez a tenu un rôle essentiel depuis 1975 pour que la langue des signes française et les Sourds soient enfin accueillis au cœur de la cité

Sign Languages of the World Julie Bakken Jepsen, Goedele De Clerck, Sam Lutalo-Kiingi, William B. McGregor, 2015-10-16 Although a number of edited collections deal with either the languages of the world or the languages of particular regions or genetic families only a few cover sign languages or even include a substantial amount of information on them This handbook provides information on some 38 sign languages including basic facts about each of the languages structural aspects history and

culture of the Deaf communities and history of research This information will be of interest not just to general audiences including those who are deaf but also to linguists and students of linguistics By providing information on sign languages in a manner accessible to a less specialist audience this volume fills an important gap in the literature **The Legal**

McKee, 2019-06-17 This book presents the first ever comprehensive overview of national laws recognising sign languages the impacts they have and the advocacy campaigns which led to their creation It comprises 18 studies from communities across Europe the US South America Asia and New Zealand They set sign language legislation within the national context of language policies in each country and show patterns of intersection between language ideologies public policy and deaf communities discourses The chapters are grounded in a collaborative writing approach between deaf and hearing scholars and activists involved in legislative campaigns Each one describes a deaf community's expectations and hopes for legal recognition and the type of sign language legislation achieved The chapters also discuss the strategies used in achieving the passage of the legislation as well as an account of barriers confronted and surmounted or not in the legislative process The book will be of interest to language activists in the fields of sign language and other minority languages policymakers and researchers in deaf studies sign linguistics sociolinguistics human rights law and applied linguistics The Reparable and the Irreparable Johann

Michel, 2022-12-19 Since the mid twentieth century Western societies have seen an unprecedented increase in movements demands and policies in favor of reparations The historical catastrophes that shook the last century are both the immediate origin of this groundswell and its founding paradigm The Reparable and the Irreparable Being Human in the Age of Vulnerability places reparation within a wider contemporary context and describes it in its full anthropological depth Repair is a global phenomenon that does not present itself in a unified way Ideas of repair and reparation are expressed at different levels for instance one can mend a damaged object heal a wound redress an injury or make amends for an offence Johann Michel explores how repair and reparation tell us about human beings natural vulnerability our moral fallibility and our social incompleteness but also about the many capabilities we draw upon to mitigate these shortcomings It is from the heart of human finitude that repair and reparation draw meaning and the irreparable whether due to time or to a debt that can never be repaid haunt any policy of reparation Such are the challenges to be addressed by a philosophy of repair and reparation constructed in renewed dialogue with the social sciences **The Language of Light** Gerald Shea, 2017-01-01 A

comprehensive history of deafness signed languages and the unresolved struggles of the Deaf to be taught in their unspoken tongue Partially deaf due to a childhood illness Gerald Shea is no stranger to the search for communicative grace and clarity In this eloquent and thoroughly researched book he uncovers the centuries long struggle of the Deaf to be taught in sign language the only language that renders them complete fully communicative human beings Shea explores the history of the deeply biased attitudes toward the Deaf in Europe and America which illogically forced them to be taught in a language they

could neither hear nor speak As even A G Bell a fervent oralist admitted sign language is the quickest method of reaching the mind of a deaf child Shea s research exposes a persistent but misguided determination among hearing educators to teach the Deaf orally making the very faculty they lacked the principal instrument of their instruction To forbid their education in sign language the language of light is to deny the Deaf their human rights he concludes Disability, Diversity and Inclusive Education in Haiti Rochambeau Lainy,2022-12-27 This book examines disability diversity and schooling exclusion in Haiti in the wake of Hurricane Matthew Defending a social and anthropological conception of disability as a consequence of any situation that makes a subject uncomfortable and unable to live or act properly the book explores the difficulties that disabled children face within the school system and considers how social exclusion provokes and exacerbates educational exclusion With contributions from linguists educational sociologists educational psychologists educators and historians the chapters focus on a range of phenomena such as the balance of languages used for teaching gender equity associated disorders and the experiences of left handed and deaf students Ultimately the authors demonstrate how the educational relationships built and practiced in school influence the perceptions of people with disabilities with respect to both singular contexts and pedagogical practices As such it represents an important study of the relationship between school exclusion disability and those with precarious socio familial conditions and how they can be conceptualized and addressed in the context of crises It will appeal to scholars researchers and academics with interests in diversity and inclusive education pedagogy crisis education and educational psychology Chapters 1 3 7 and 8 of this book are available for free in PDF format as Open Access from the individual product page at www.routledge.com They have been made available under a Creative Commons Attribution Non Commercial No Derivatives 4 0 license
