L'homme Agrave La Folie Philosophes Et Psychiatres Transversales Philosophiques:

L'homme a la folie JEAN-PHILIPPE PIERRON.,2015-04-08 Philosophes et psychiatres nourrissent des capillarités secrètes et des questionnements communs Souvent la méditation du philosophe se met à l'écoute de ces situations et de ces visages de l'humain malade qui habitent des masques que l'on croit inhabitables horla et que lui rapporte le psychiatre Sous le souci de biologiser la maladie mentale le savoir et le savoir faire de la psychiatrie font le pari de l'humanité et de la nécessité de la relation Penser l'homme et la folie Henri Maldiney,2007 Penser l'homme et la folie dans ce recueil d'études est condensé au fil des dernières années sa réflexion Henri Maldiney se propose de penser ensemble l'énigme de l'humanité et l'énigme de la catastrophe qui survient certains d'entre nous Double décentrement de la pensée qui la met à la fois hors de l'anthropologie factuelle philosophique et de son envers dans les théories psychopathologiques Double décentrement os prouvent donc au mieux la tradition philosophique et en particulier celle qui est issue de Heidegger et la tradition de la Daseinsanalyse et de la Schicksalsanalyse telle qu'elle est représentée par Binswanger Straus Minkowski von Weizsäcker et Szondi Dans une démarche authentiquement phénoménologique où il s'agit de retourner la chose même de l'humain et de la folie de penser en va et vient de l'énigme penser ce qui en a dit Henri Maldiney dégage par sa conception toute nouvelle de la transpossibilité et de la transpassibilité une compréhension globale du phénomène humain qui le rend moins intraitable que par le passé Le système de la folie montre tout il vient d'un nigmatique court circuit de la transpossibilité et de la transpassibilité qui est seul propre les mettre véritablement en relief comme la dimension profonde et cachée de notre expérience celle de l'événement ou de l'émergence du nouveau de la surprise de l'inattendu La transpassibilité est une possibilité qui nous excède en ce qu'elle fonde toute possibilité pour nous d'exister parce qu'elle est en de de tout projet transpossibilité de l'accueil et de l'accueil transpassible y compris de l'accueil par nous mêmes de nous mêmes Le résume Henri Maldiney comme un leitmotiv qui traverse tout l'ouvrage est toujours ce qu'on n'attendait pas **UNE PSYCHIATRIE PHILOSOPHIQUE** Philippe Prats,2001-01-01 Que l'on parle de maladie mentale ou de maladie psychique ces notions ont non seulement une histoire qui leur est propre mais de plus signifient une position philosophique précise Henri Ey en constituant sa théorie organo-dynamique avait en vue ce sens qui dessine la figure de la folie C'est aussi la perspective clairante de cette œuvre son insertion dans l'histoire de la notion de conscience initiée au XVIII^{si} cle C'est cette aventure qui est retracée ici ses vicissitudes ses victoires mais aussi ses doutes *Penser l'homme et la folie* Henri Maldiney,1991 Penser l'homme et la folie dans ce recueil d'études est condensé au fil des dernières années sa réflexion Henri Maldiney se propose de penser ensemble l'énigme de l'humanité et l'énigme de la catastrophe qui survient certains d'entre nous Double décentrement de la pensée qui la met à la fois hors de l'anthropologie factuelle philosophique et de son envers dans les théories psychopathologiques Double décentrement os prouvent donc au mieux la tradition philosophique et en particulier celle qui est issue de Heidegger et la tradition de la Daseinsanalyse et de la Schicksalsanalyse telle qu'elle est représentée par Binswanger Straus Minkowski Von Weizsäcker et

Szondi Dans une démarche authentiquement phénoménologique où il s'agit de retourner la chose même de l'humain et de la folie de penser en vain et vient de l'énigme penser ce qui en a dit Henri Maldiney dégage par sa conception toute nouvelle de la transpossibilité et de la transpassibilité une compréhension globale du phénomène humain qui le rend moins intraitable que par le passé Le système de la folie montre tout il vient d'un énigmatisme court circuit de la transpossibilité et de la transpassibilité qui est seul propre les mettre véritablement en relief comme la dimension profonde et cachée de notre expérience celle de l'événement ou de l'émergence du nouveau de la surprise de l'inattendu La transpassibilité est une possibilité qui nous excède en ce qu'elle fonde toute possibilité pour nous d'exister parce qu'elle est en-dehors de tout projet transpossibilité de l'accueil et de l'accueil transpassible y compris de l'accueil par nous mêmes Le rôle de Henri Maldiney comme un leitmotiv qui traverse tout l'ouvrage est toujours ce qu'on n'attendait pas

Comment penser la folie ? Christian FIERENS, 2012-11-26

Comment penser la folie Cette question conditionne et prend termine sans doute tout traitement de la psychose que ce traitement soit sociologique ou psychologique médical ou politique Elle concerne d'abord toute personne qui voudra bien reconnaître au moins titre de possibilité son propre grain de folie Qui n'a jamais perdu une sensation sans fondement dans la réalité Qui n'a jamais connu un argument sans rapport avec la réalité Qui n'a jamais voulu un acte qui défiait toute réalité Comment penser ces cartes de la perception ces absurdités de l'intelligence et ces extravagances de la volonté qui sont susceptibles de se présenter chez chacun Comment en parler si ces folies définissent le fonctionnement de toutes ces facultés Comment pourrait-on se fier au bon sens pour guider la parole si le grain de folie germe déjà dans un coin perdu du bon sens Construit sur un fond philosophique Kant Hegel et psychanalytique Freud Lacan cet essai a pour ambition d'articuler la pensée sans oublier les confins où elle côtoie la déraison et la folie sans oublier qu'elle est le propre de l'être pensant Christian Fierens est docteur en psychologie et psychiatre il exerce la psychanalyse Tervuren près de Bruxelles

Parcours de la folie Alain Vernet, 2025-11-06 La psychiatrie inquiète et fascine comme tous les lieux clos lieux de retrait de la société abritant une population qu'on ressent comme dangereuse ou étrange mais dont cet isolement impose fait qu'en outre elle apparaît étrangement différente et par conséquent anormale C'est le cas des malades mentaux même si leur représentation ne fut pas toujours identique selon les époques Malgré quelques périodes de plus grande tolérance 12^e et 13^e siècles période dite des trente glorieuses ils ont tout le plus souvent tenu distance dans une forme de ségrégation grâce à différents dispositifs hospitaliers généraux de pitié des mendicants asiles d'aliénés dont le but était de lutter contre le chaos qu'était la folie et ses manifestations afin de retrouver une harmonie la fois ordre public extérieur et équilibre personnel tout ceci travers la mise en place d'un nomos d'un topos et d'un logos architectures juridiques physiques mentales Ce cadre général macroscopique qui survivra jusqu'à la construction dans la deuxième moitié du 20^e siècle se déclinerait en situations particulières locales toujours assez semblables quelques différences près comme dans le département du Cher qui servira de lieu d'observation en quelque sorte microscopique
