

The background of the slide is a painting of a Breton landscape. In the foreground, a person wearing a dark hat and a dark coat is walking across a field. In the middle ground, a small boat is on the water. The background shows a hazy, distant landscape under a soft, warm sky.

Les Economistes Bretons:

Les économistes bretons Benoît Malbranque, 2014-03-10 Dynamique audacieuse et souvent en avance sur son temps la pensée économique originaire de la Bretagne peut encore nous rendre une très grande utilité. En réalité rares sont les régions qui peuvent se targuer d'avoir joué un aussi grand rôle dans l'histoire d'une science. Et pourtant si les Nantais par exemple connaissent bien les noms de Graslin ou de Louis Say cadet de Jean Baptiste Say peu seraient capables de décrire leurs mérites respectifs d'économistes. Un oubli d'autant plus pardonnable qu'aucun historien n'avait ce jour réexposé précisément leurs apports. Ce livre entend combler cette lacune. Du malouin Vincent de Gournay précurseur de cette science maître de Turgot et inspirateur de l'école française d'économie jusqu'aux disciples les plus lointains tels Yves Guyot natif de Dinan directeur du Journal des économistes et l'une des principales figures de cette école française d'économie la toute fin du XIXe siècle nous verrons défilés dans cet aperçu apparemment régional toute la palette des génies qui exerçaient jadis leurs talents à solutionner les plus vifs débats économiques.

A History of Economic Thought in France Gilbert Faccarello, Claire Silvant, 2023-10-02 Traditionally there has been a long and sustained interest in studying the history of economic ideas in France. Interest appeared to wane after World War II but in recent decades there has been a marked renaissance of interest and research in the contributions of French speaking authors. Drawing on the flow of recent research this book presents a new assessment of the history of political economy in France incorporating both novel presentations of some traditional subjects and topics that are not usually studied. This second volume analyses the evolution of political economy during the long nineteenth century combining an assessment of both liberals and their opponents. Its first part covers the most outstanding contributions to political economy in the age of industry from the founding fathers L C C Destutt de Tracy and J B Say until the pre World War I period including that of A A Cournot J Dupuit the French liberal economists and L Walras. The volume then outlines the critiques of liberal political economy focusing on the analyses of J C L S de Sismondi C H de Saint Simon and his followers and the successive generations of socialist and associationist authors not forgetting the sociological critique. A substantial postlude concludes the volume with a survey of recent developments of French economic thought up to the present day. A History of Economic Thought in France will be invaluable reading for advanced students and researchers of the history of economic thought political economy intellectual history and French history.

40 Years of Economics Muriel Dal Pont Legrand, Sandye Gloria, 2025-09-01 This book is written in honour of Richard Arena Professor of Economics at the University of the Côte d'Azur and a specialist in the history of economic thought. Written by distinguished scholars and historians of economic thought this volume covers various scientific topics that Richard Arena has dealt with during his 40 years of academic activity. It features contributions on the theory and history of economic analysis covering economic thinking from the 19th and 20th centuries through the post war period to Cambridge economics and the Sraffa period. It also includes contributions on economic modelling economic philosophy and ontology. This book will be of interest to anyone

interested in the history of economics and in particular the work of Richard Arena *Political Economy and Liberalism in France* Robert Leroux, 2011-03-04 The purpose of this book is to provide a comprehensive analysis of the work of Frédéric Bastiat 1801-1850 one of the towering intellectual figures of nineteenth century France More than anyone else of his time Bastiat personified the struggle of liberalism and science against socialism and utopia Between 1844 and 1850 his campaign for the idea of liberty and his commitment to the discipline of political economy made him one of the most vigorous champions of economic liberalism in France Bastiat put forth one of the most ambitious interpretations of the liberalism of his time one that entailed both a critique of primitive socialism and a concern to provide political economy with a theoretical foundation His thinking is far more sophisticated than would appear at first glance Nor can it be confined as so many commentators would have us believe to its strictly economic dimension The themes that Bastiat addressed free trade competition labour among others certainly helped to reduce it to this dimension Yet he did not limit himself to these issues even if he dealt with them at length He also paid close attention to the political moral social and religious dimensions Coming as Bastiat's writing did at a decisive moment in the history of French liberalism the very existence of his work explodes the long standing received idea to the effect that liberalism and in particular economic liberalism is the exclusive domain of Anglo Saxon countries Bastiat's work thus offers a solid rebuttal to Hayek who proclaimed the total absence of a liberal tradition in France This book should be of interest to students and researchers of many strands of economics as well as those looking at French liberalism and the history of social science more generally **Léon Walras, Economist and Liberal Socialist** Jean-Pierre Potier, 2025-11-10 This book offers an in depth exploration of the genesis of Léon Walras's work and its impact on the history of economics Through a thorough examination of both published and unpublished writings correspondence and personal notes the book reveals new insights into Walras's intellectual evolution and his overall conception of economics It traces the formation of his theoretical framework the elements of his political and social economy and his aspirations for a liberal and humanitarian scientific socialism The book is organized into five parts Part I investigates the influences shaping Walras's thought including his relationship with his father Auguste Walras and the intellectual legacy of Jean Baptiste Say This section also discusses Walras's views on the stages of historical development reflecting on the industrial and commercial transformations of his time and his framework for categorizing the social and political sciences Part II examines the development of Walras's general equilibrium theory the role of free competition within a pure economy and the reception of his ideas in Italy and France It highlights the historical and intellectual context surrounding his theoretical innovations Part III addresses Walras's approach to the teaching of economics with a focus on avoiding intellectual rigidity particularly in France It explores his work in social and applied economics at Lausanne and his efforts to shape academic resources such as library acquisitions to support this vision Part IV critiques French liberalism analyzing Walras's responses to figures like Louis Blanc and the Saint Simonians and discusses his editorial work with *Le Travail* which

advocated cooperative approaches Part V highlights Walras's reformist ideas including his vision for labor market organization the state's role in land repurchase to replace taxes the regulation of public services and natural monopolies and his ideas on democracy particularly his campaign for professional representation of interests This comprehensive analysis appeals to scholars and students of the history of economic thought and anyone interested in understanding the formation and legacy of Walras's work Studies in the History of Public Economics Gilbert Faccarello, Richard Sturn, 2014-06-17

Many important economic and political debates today refer to the nature and the role of the State should governments intervene in the economy and interfere with the operation of markets In which occasions and how In order to better understand these questions and the controversies they have raised this book re considers the debates crucial for the issues at stake the most important schools of thought and the central concepts in an historical perspective After a tribute to Sir Alan Peacock and the first publication of two hitherto unpublished papers written in the 1950s the chapters focus on important developments that occurred in Europe during the 19th and early 20th centuries The final part includes contributions on public economics after World War II focusing on concepts such as merit goods externalities and the Coase theorem This book was originally published as a special issue of The European Journal of the History of Economic Thought *Les économistes classiques et leurs adversaires* Richard Schüller, 1914 **Journal des économistes**, 1884 **Journal des économistes**, 1917 From 1882 to 1889 includes the Comptes rendus of the Société de Statistique de Paris **Pèlerinage des bretons de Paris au Sacré Coeur de Montmartre le 2 avril 1905...** Jérôme Buléon, 1905 *Le Jacquard*, 1895 *Les économistes français et le marxisme* Thierry Pouch, 2001 Dresse une histoire des rapports entre les conomistes et le marxisme dans les universités françaises L'objectif poursuivi est double d'une part essayer de comprendre les raisons de l'implantation du marxisme en conomie partir du début des années 50 et d'autre part de mettre au jour les déterminants qui ont conduit cette pensée critique tre exclue des amphithéâtres et de la recherche *Les économistes français du dix-huitième siècle* Léonce de Lavergne, 1870 Journal des économistes, revue mensuelle de la science économique et de la statistique, 1878 **Les Bretons à l'aventure** Jean Choleau, 1950 Journal des économistes Blanqui (M., Adolphe-Jérôme), Hippolyte Dussard, Joseph Garnier (i.e. Clément Joseph), Henri Joseph Léon Baudrillart, Gustave Molinari, 1871 **Ma Bretagne** P.
