Description des besoins des proches aidants qui accompagnent une personne en soins palliatifs et de fin de vie à domicile Elizabeth Pepin, 2019 La majorit des personnes en fin de vie souhaite mourir dans le confort de leur domicile si les circonstances le permettent Pour ce faire la participation des proches aidants est essentielle Bien que ce r le soit de plus en plus reconnu on observe une m connaissance

du soutien qu'il convient de leur offrir pour les préparer et les soutenir dans ce rôle d'accompagnement. Cette étude qualitative descriptive s'intéresse aux proches aidants qui ont accompagné une personne recevant des soins palliatifs et fin de vie domicile. Plus précisément, elle vise à décrire leurs besoins tout au long de la trajectoire de la maladie de leur proche malade. Ainsi, 20 proches aidants ont participé à une entrevue semi-structurée afin de partager leur expérience d'accompagnement et d'identifier leurs besoins de soutien. Le cadre conceptuel de l'étude repose sur la théorie intermédiaire de la transition Meleis (2010) et le cadre des soins de soutien en oncologie Fitch-Porter (Page, 2008). Ce cadre adapté aux concepts de l'étude permet de mieux comprendre les éléments qui facilitent ou entravent la transition vers le rôle de proche aidant et permet d'identifier les besoins qui en découlent. L'analyse thématique des données selon les domaines de besoins de Fitch et al. (2008) a permis de constater que la majorité des proches aidants considère ne pas avoir les connaissances ni les ressources nécessaires pour accompagner leur proche en soins palliatifs et fin de vie domicile. La plupart soutiennent qu'ils ont dû mettre leur vie de côté et s'adapter aux changements dans la relation avec leur proche devant faire la transition entre le rôle de conjoint ou enfant unique et de soignant. L'augmentation constante des responsabilités a mené à un épuisement. Le soutien de l'infirmière, notamment par l'enseignement sur les soins prodigués et l'information concernant la gestion de la médication et des symptômes, semble essentiel pour favoriser le maintien domicile. Les proches aidants ont également mentionné qu'ils auraient eu besoin d'un soutien professionnel durant la période de deuil, mais que ce soutien était absent. Mots-clés en français : transition, besoins, proches aidants, soins palliatifs et de fin de vie domicile, rôle infirmier.

Pour aider les aidants Valérie Bergua, Jean Bouisson, Nancy Guberman, Olivier Frézet, 2021-03-24. L'aidance désigne aussi bien celui qui apporte son aide que celui qui la reçoit. À l'heure du vieillissement de la population et de l'augmentation des dépendances, l'aidance est au cœur des enjeux de notre société. L'Aidance couvre un large spectre de sens : celui qui aide, celui qui est aidé, le lien qui les unit. Elle englobe aussi la forme et les moyens de l'aide, les différents acteurs qu'elle met en jeu, aussi bien au niveau du droit que de la mise en œuvre des ressources disponibles et leur organisation, ainsi que les rôles possibles. Aidance lors d'une maladie grave en phase de rémission, lors de troubles psychiques, de démences. À l'heure du vieillissement de la population et de l'augmentation des dépendances, l'Aidance est au cœur des enjeux de notre société. Que sait-on des aidants ? Quels sont leurs besoins ? Comment appréhender la charge que représente cette fonction ? Quelles sont les repercussions de l'Aidance au niveau individuel, familial, social ? Fraternité, entraide, coopération : cet ouvrage invite le lecteur à saisir l'Aidance pour aider l'aidant. Un véritable enjeu de santé publique pour les années venant.

De la proche aidance... à la bienveillance : Témoignages et plaidoyer, 2018. La proche aidance évoque surtout le cas de personnes devant leur temps aider un membre de leur famille vivant avec un handicap ou une maladie. Mais il existe aussi des organismes dont la mission vise à aider de nombreuses personnes aux prises avec des problèmes existentiels majeurs. Pour exemple, la Fondation Gilles Carle, les Petits Frères, la Mission Old Brewery, le Conseil de la Protection des malades, le Regroupement des aidants naturels de Montréal, l'Appui à la toile de Pâcho, etc. Ce livre d'
