symbolic and aesthetic immersion the other is creating goods for a market and markets for a good They often deal and struggle with the same issues framing it differently and finding different solutions This book has the potential of offering both critical theoretical and empirical understanding of these subjects and guiding further exploration and research into this field Although this dichotomy has a well documented existence it is reconstructed through the writing out of business in art and vice versa This edited volume distinguishes itself from other writings aimed at closing the gap between art and business as it does not have a firm standpoint in one of these fields but treating them as symmetrical and equal The belief that by giving art and business an equal weight the editors also create the opportunity to communicate to a wider audience and construct a path forward for art and business to coexist **Kollaborative Praxis: Choreographie** Martina Ruhsam,2011
