web the magnetic field force produced by an electromagnet called the magnetomotive force or mmf is proportional to the product multiplication of the current through the electromagnet and the number of complete coil turns formed by the wire introduction to magnetism video khan academy - Mar 30 2022

web yes electromagnetism is one of the most common sources of power on the earth the earth is constructed with a north and south pole and a inner core made up of metallic composites presumably and largely iron the magnetic field around the earth is driven largely by this source of electromagnetism

web nov 14 2022 magnetism is the force exerted by magnets when they attract or repel each other magnetism is caused by the motion of electric charges every substance is made up of tiny units called atoms each atom has electrons particles that carry electric charges spinning like tops the electrons circle the nucleus or core of an atom their
