A N D R O I D T A B L E T User Manual

Please read this manual before operating your device, and keep it for future reference.

Section 1: Getting Started

This section explains how to start using your tablet by configuring your hardware and activating your service.

Setting Up Your Tablet

Prior to use it is necessary to install both the SIM card and the memory card into their corresponding compartments.

Warning!: Please note that a touch screen responds best to a light touch from the pad of your finger. Using excessive force or a metallic object when pressing on the touch screen may damage the tempered glass surface and void the warranty. For more information, refer to "Standard Limited Warranty" on page 135.

Installing the SIM Card

When you subscribe to a cellular network, you are provided with a plug-in SIM card loaded with your subscription details, such as your PIN, available optional services, and many others features.

Important: The plug-in SIM card information and its contacts can be easily damaged by scratching or bending, so be careful when handling, inserting, or removing the card. Keep all SIM cards out of reach of small children. Carefully slide the SIM card into the SIM card socket (as shown) until the card locks into place. Make sure that the card's gold contacts face downward and that the upper-left angled corner of the card is positioned as shown.

Note: If the card is not inserted correctly, the tablet does not detect the SIM card. Re-orient the card back into the slot if the SIM is not detected.

Installing the Memory Card

Your device lets you use a microSD™ (SD) or microSDHC™ card to expand available memory space. This secure digital card enables you to exchange images, music, and data between SD-compatible devices. This type of memory card is designed for use with this tablet and other devices. Push the microSD card into the slot until it clicks (as shown). Make sure the microSD's gold contact pins face downward and the card is securely inserted.

Using the Travel Adapter

To use the travel adapter to charge your battery, follow these steps:

1. Carefully slide the Outlet Connector into the Charging Head
