Robertson-Miller, 2015-07-21 Excerpt from Butterfly and Moth Book Personal Studies and Observations of the More Familiar Species My interest in Moths and Butterflies was awakened some ten years ago while at the farm on which we spent our summers The big flower garden and the old orchard served free luncheons to these insects and judging by numbers they appreciated the treats offered At the time I was in need of an entire change of thought a relaxation from the strain which had come with the long illness of the little mother She had grown better but I realized that henceforth she would always require my personal care and attention and I wanted to give her not only these but some new interests which might replace in part other interests that she would be obliged to relinquish It was then that the Moths and Butterflies solved these problems for they led us into the fairy land of Natural Science where as we journeyed we forgot much of the fatigue and pain of earlier days About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works *Butterfly and Moth Book: Personal Studies and Observations of the More Familiar Species (1920)* Ellen Robertson-Miller, 2008-08-01 This scarce antiquarian book is a facsimile reprint of the original Due to its age it may contain imperfections such as marks notations marginalia and flawed pages Because we believe this work is
