English and Its Teachers Simon Gibbons, 2017-04-21 English and Its Teachers offers a historical overview of the development of secondary English teaching in schools over the past 50 years Initially charting the rise of a new progressive approach in the 1960s the book then considers the implications for the subject and its teachers of three decades of central policy intervention Throughout document and interview data are combined to construct a narrative that details the fascinating and at times turbulent history The book is divided into two main parts The age of invention and The age of intervention The first of these sections details how innovative English teachers and academics helped to develop a new model

The second section explores how successive governments have sought to shape English through policy. A final part draws comparisons with the teaching of the subject in other major English speaking nations and considers what the future might hold. *English and Its Teachers* is a valuable resource for those interested in the teaching of English in secondary schools from new entrants to the profession to experienced teachers and academics working in the sector. *Bina* Gari Tudor-Smith, Paul Williams, Felicity Meakins, 2024-07-30

The incredible story of the resilience and recovery of Australia's First Nations languages. Australia's language diversity is truly breathtaking. This continent lays claim to the world's longest continuous collection of cultures including over 440 unique languages and many more dialects. Sadly, European invasion has had severe consequences for the vitality of these languages. Amid devastating loss, there has also been the birth of new languages such as Kriol and Yumplatok, both English-based Creoles. Aboriginal English dialects are spoken widely and recently there has been an inspiring renaissance of First Nations languages as communities reclaim and renew them. *Bina: First Nations Languages Old and New* tells this story from the earliest exchange of words between colonists and First Nations people to today's reclamations. It is a creative and exciting introduction to a vital and dynamic world of language. Years in the making, *Bina* offers a multidimensional reflection on how many diverse languages across this continent continue to vibrate in rich and profound ways. The emergence of Indigenous linguists Gari Tudor-Smith and Paul Williams as authors of this survey alongside Felicity Meakins signals an important and welcome shift in the Australian linguistics landscape.
