Reconciling Responsibility with Reality Johannes Block, 2023-08-26 This book explores the issue of leadership criminality from a new angle by comparing two highly relevant modes of responsibility By contrasting individual criminal responsibility for ordering international crimes with indirect perpetration through an organisation it shows the doctrinal weaknesses of the latter and outlines the much overlooked advantages of the former The volume analyses the development of both forms of responsibility looking at their origins and their reception in academia and practical use in jurisprudence The history of indirect perpetration through an organisation Organisationsherrschaft is portrayed from its German academic origin through German jurisprudence to the reception of the doctrine at the International Criminal Court By comparing the doctrine s stages of evolution the book sheds light on the different aspects of the various models of indirect perpetration through an organisation and carves out general and fundamental criticism of it The characteristics of ordering liability are explored in depth through an analysis of jurisprudence of the Nuremberg subsequent trials the ad hoc tribunals and the International Criminal Court This historic and doctrinal comparison reveals a well defined and to date much neglected mode of responsibility with enormous potential for the adjudication of leadership figures in the ambit of international criminal law and only one conclusion can follow from this analysis it calls for practitioners and academics to leave the well trodden paths of national criminal law doctrine and embrace truly international modes of liability such as the ordering of a crime This volume in the ICJ series provides practitioners researchers and students with a detailed account of forms of leadership liability and an innovative approach to the topic s most discussed issue Dr Johannes Block is a criminal lawyer specializing in international criminal law responsibility of leadership figures questions of perpetration and participation in crime as well as the national socialist crimes He studied in Münster Germany and Bogotá Colombia and obtained his Doctor from the University of Cologne where he also worked and taught as a research assistant for several years His legal clerkship led him to organized crime investigations criminal defence the European Commission and the German Federal Ministry of Justice

Glial Plasticity in Depression João F. Oliveira, Catarina A. Gomes, Sandra H. Vaz, Nuno Sousa, Luisa Pinto, 2016-10-24 Major depression is a highly prevalent disorder that poses a significant social burden in society nowadays

The pathophysiology of this disease is still poorly understood but growing evidence suggests that impaired neuron and glial plasticity may be a key underlying mechanism for the precipitation of the disorder. One of the most surprising findings in this field was the involvement of glial cells in the pathophysiology of major depression and in the action of antidepressants, namely in mechanisms related with adult neurogenesis imbalances or dendritic arborization impairments. In particular, several works refer to alterations in the morphology and numbers of astrocytes, microglia and oligodendrocytes in the context of depression in human patients or animal models of depression. These observations were linked to functional evidences and suggested to underlie the pathophysiology of depression. Among others, these include impairments in the cross talk between glia and neurons, changes in the level of neurotransmitter or immunoactive substances, myelination status, synapse formation, maintenance or elimination. In addition to the implication of glia in the pathophysiology of depression, a number of studies is ascribing glia pathways to classically accepted antidepressant mechanisms. Therefore, it is noteworthy to elucidate the role of glia in the effect provided by antidepressant treatment in order to better understand secondary effects and elucidate alternative targets for treatment.

How Close is Close? Assessing Uganda's Progressive Refugee Policy in the Era of COVID-19 Marco d'Errico, Donato Romano, Paul Winters, 2024-12-02. Uganda is home to 1.5 million refugees from DRC, Burundi, South Sudan and other countries. The Uganda political framework is one of the most progressive and inclusive toward refugees. Only a fraction of the refugees is likely to go back to their home countries. This book assesses Uganda's progressive refugee policy with reference to how it functioned in the era of COVID-19 using a unique panel data collected between 2017 and 2021. The Uganda Refugee Policy 2006 and the Refugee Regulations 2010 grant refugees wide ranging rights that include allocating land for agriculture purposes, freedom of movement and the right to seek employment. However, the magnitude and the speed of influx of refugees in recent years have posed critical challenges to the sustainability of these progressive policies. On top of this unpredictable and unprecedented crises have emerged such as COVID-19 and the Ukraine war that have threatened food security and the resilience of livelihoods, value chains and food systems. The chapters in this book assess Uganda's progressive refugee policy with reference to how it functioned in the era of COVID-19. They focus on the following three main areas: i) the economic relationship and coexistence between host and refugees communities; ii) the success and sustainability of the current model of assistance; and iii) the response to COVID-19 on communities' welfare and long term prospects. Addressing these issues is possible due to a unique panel dataset of thirteen refugee settlements and neighbouring host communities specifically collected for these purposes. Investigating the economic consequences of the integration between host and refugees communities and offering new evidence with specific reference to Uganda, this book will be a key resource for scholars, researchers and practitioners of development studies, African studies, economics and sociology. It was originally published as a special issue of The Journal of Development Studies.

The Justice Laboratory Kerstin Bree Carlson, 2023-03-14 Examining how international criminal law has and hasn't brought justice following war crimes in Africa Ever since World War II the United Nations and other international actors have created laws treaties and institutions to punish perpetrators of genocide war crimes and crimes against humanity These efforts have established universally recognized norms and have resulted in several high profile convictions in egregious cases But international criminal justice now seems to be a declining force its energy sapped by long delays in prosecutions lagging public attention and a globally rising authoritarianism that disregards legal niceties This book reviews five examples of international criminal justice as they have been applied across Africa where brutal civil conflicts in recent decades resulted in varying degrees of global attention and action The first three chapters examine key international mechanisms the International Criminal Court the International Criminal Tribunal for Rwanda and the hybrid tribunal established in Senegal to try state crimes committed in Chad These chapters illustrate how the design and practice of the institutions led to similarly unexpected and unsatisfying outcomes The final two chapters examine emerging and proposed international criminal justice mechanisms One is a tribunal intended to facilitate peace in the new but war torn country of South Sudan not yet operational and unlikely to perform better than its predecessors Finally the book considers the developing human rights practice of the little studied East African Court a regional commercial court in Arusha Tanzania to show how local judicial creativity can win a role for courts in facilitating good governance Written in an accessible style this book explores the connections between politics and the doctrine of international criminal law Highlighting little known institutional examples and under discussed political situations the book contributes to a broader international understanding of African politics and international criminal justice as well as the
