

JCT STANDARD BUILDING CONTRACT 2016 CHANGES

On 31 October 2016 the JCT published a new edition of its Standard Building Contract with the changes listed below. The update including new definitions and The Construction Design and Management Regulations (CDM) are now incorporated into the construction contract.

1. PAYMENT PROVISIONS (SIMPLIFIED):

- Combined Payment Notice and Pay Less Notice and final dates for payment.
- Interim valuation dates which apply throughout the construction period and the rectification period payments now will be every month rather than every two months.
- 14-day period applies to both the period of time between the due date and the final date for payment for interim and final payments.
- New procedure for prompt assessment within 28 days by the employer of loss and expense claims and 14 days from each subsequent monthly update from the Contractor.
- Fluctuations Options A, B and C were made more flexible and are set out and selected in the Contract Particulars. Options B and C are no longer attached to the contract but are still available to use from the JCT website and the contract now allows for an alternative bespoke cost adjustment formula.

2. EXISTING STRUCTURE AND INSURANCE

A new insurance Option C available to permit alternative solutions to the problems and allows the parties to set out their own bespoke insurance arrangements.

It is also optional to include an optional product liability insurance instead of professional indemnity insurance (the required type is to be specified in the Subcontract Particulars).

3. INTERIM VALUATION DATE (IVD)

Introduced in all editions to permit an option to specify it prior to the commencement of work on site (must be specified in the Contract Particulars regardless of A or B option applies).

The due date for payment is 7 days after the IVD, or if the contractor's interim payment application is submitted later than the IVD, 7 days after the employer's receipt of the interim payment application.

Contract Documentation for Contractors

Vincent Powell-Smith, John H. M. Sims, Christopher Dancaster, 2008-04-30 The JCT standard forms of building contract require a thorough understanding of their procedural requirements as well as their legal implications They require both the contractor and the architect on behalf of the employer to send a wide range of notices and letters if each party is to protect its legitimate interests The main contract forms are also supported by complex sub contract documentation Therefore it is not surprising that when this book of specimen letters notices and forms was first published it was widely welcomed by the

construction industry The book provides examples of documentation likely to be required for a contract under the following JCT forms the Standard Form of Building Contract the Intermediate Form of Building Contract the Agreement for Minor Building Works the Standard Form of Building Contract With Contractor s Design It includes a commentary on the practical implications of the various documents and highlights the points to be watched The new edition takes into account the wide range of amendments to the latest editions of the standard forms following the Housing Grants Construction and Regeneration Act 1996 and in particular the new payment and adjudication provisions For the first time it features documentation for use with the JCT design and build form
