

FIRE POWER™ & YUASA® BATTERIES

Marshall Distributing offers you two quality battery brands. Fire Power® is available in Polymion and Yuasa is available in Yumicron and Yumicron CX.

POLYMION and YUMICRON batteries deliver high performance with two extra plates per cell for a dynamic 30% improvement in cranking performance. This power advantage is especially important for modified machines with high compression and exotic carburation.

YUMICRON CX: Because of the lower internal impedance inherent in the YuMicron CX design, the CX will generate 5% to 8% more cold cranking amperage than our own high-output YuMicron lead-antimony battery. This means greater reserve capacity as well as lots of punch for today's big complex machines.

To make ordering and comparisons as easy as possible, we have assigned the same 9000 series number to both brands of batteries. Fire Power batteries have no prefix. Yuasa batteries have a 21-prefix. For example:
