Mutapa S Economic Activities:

People Making History Peter S. Garlake, Andre Proctor, T. Barnes, 1985 Two titles complete the four part series of African history told by Africans from an African perspective Recommended for schools in Zimbabwe the series represents a reclaiming of history from the distortions of Eurocentric teaching Book 3 covers pre capitalist modes of production in Africa early merchant capitalism in Africa growth of industrial capitalism in Europe revolution and socialist transformation and capitalism in crisis Readers are encouraged to think critically and read the source material included In addition to giving attention to the great people in history the book focuses attention on the ordinary men and women peasant farmers workers mothers and children The people s voice is heard through direct quotations Book 4 covers colonialism and resistance Zimbabwe under colonial rule revolution and transformation and world ant imperialist struggles *Gender, Politics and Land Use in Zimbabwe 1980ñ2012* Mafa, Onias, Gudhlanga, Enna S., 2015-10-19 The agrarian reform dynamics in southern Africa have to be understood within the framework of colonial land policies and legislation that were designed essentially to expropriate land and natural resource property rights from the indigenous people in favour of the white settlers Colonial land policies institutionalised racial inequity with regard to land although conditions are not homogeneous there are broad themes that cut across the southern Africa region Colonialism dispossessed and impoverished the people by taking away the most productive lands Neoliberal globalization has undermined the people s well being through direct influences on agriculture and rural economies in conjunction with policies promoted by national governments and international agencies Another shared feature is to be found in the high rates of unemployment poor returns to small scale agriculture lack of access to social services such as health and education all of which serve to erode existing livelihood activities and perpetuate relative and absolute poverty in rural areas This comparative study on Zimbabwe s agrarian reforms may provide countries such as South Africa and Namibia with valuable lessons as they attempt their own land reforms Conflicts between colonialists and the indigenous people in the then Rhodesia centred mainly on the land question This inequitable distribution of land resulted in Africans waging liberation struggles in order to reclaim their land from the colonialists In most post colonial countries calls have been made for land redistribution as a way of redressing colonial injustices in land tenure systems The process of reclamation of land and redistributing it to the indigenous people is fraught with problems and has resulted in the present day land crisis in many parts of Africa and other continents These are some of the issues this book examines attempts to understand and explain from a gender perspective Gender relations are viewed in terms of land use and ownership in pre colonial colonial and post colonial Zimbabwe These socially constructed roles have been found to be unequal in terms of power and decision making It is argued that lessening of social inequalities between men and women reduces poverty raises farm efficiency and improves natural resource management The book emphasizes that once women are empowered the quality of life of their households improves *Africa's Future* Duncan Clarke, 2012-02-09 Many seek to fix Africa economists

experts politicians gurus cognoscenti and glitterati But the continent conceals multiple secrets including the Holy Grail explanations of its saga over the previous centuries Africa s Future tells the tale of Africa s economic evolution revealing unique prisms for understanding the continent s panoramic story one of triumph over the lasting influences of nature and multiple political tragedies Modern Africa developed diverse economic pathways to betterment yet survivalist economies litter the landscape Its paradox of subsistence with many faces coexists amidst the tiny middle class growing rich and many more poor expected in the future Clarke provides fresh and challenging insights into Africa s economies and future offering seasoned views on a continent of unlocked potential which has witnessed many false dawns Not poor but poorly managed Africa holds greater promise its destiny revealed by its history **Space, Time and Social Formation** Paul J.
