

UX Case study

My College Guide is a web application where students apply to multiple universities at the same time.

Roles: UX Researcher
UI Designer

Tool: 

Duration: 8 weeks

Problem Statement

Every year, hundreds of thousands of high school students apply to US universities to get into undergraduate programs. Applying to multiple universities involves managing various deadlines, document submissions, communication with admissions offices, and staying organized throughout which can be complex and time-consuming application process.

Possible Solution

Design a web application, where students can apply to multiple universities at the same time. Student should be able to filter all available US universities by different majors and study programs to find a list of universities to select and apply to at the same time and also, to be able to keep track of their application.
