# Multiple mini interview (MMI) for general practice training selection in Australia: interviewers' motivation

Annette Burgess<sup>1\*</sup>, Chris Roberts<sup>1</sup>, Premala Sureshkumar<sup>2</sup> and Karyn Mossman<sup>3</sup>

## Abstract

**Background:** Multiple Mini Interviews (MMIs) are being used by a growing number of postgraduate training programs and medical schools as their interview process for selection entry. The Australian General Practice and Training (AGPT) used a National Assessment Centre (NAC) approach to selection into General Practice (GP) Training, which include MMIs. Interviewing is a resource intensive process, and implementation of the MMI requires a large number of interviewers, with a number of candidates being interviewed simultaneously. In 2015, 308 interviewers participated in the MMI process – a decrease from 340 interviewers in 2014, and 310 in 2013. At the same time, the number of applicants has steadily increased, with 1930 applications received in 2013; 2254 in 2014; and 2360 in 2015. This has raised concerns regarding the increasing recruitment needs, and the need to retain interviewers for subsequent years of MMIs. In order to investigate interviewers' reasons for participating in MMIs, we utilised self-determination theory (SDT) to consider interviewers' motivation to take part in MMIs at national selection centres.

**Methods:** In 2015, 308 interviewers were recruited from 17 Regional Training Providers (RTPs) to participate in the MMI process at one of 15 NACs. For this study, a convenience sample of NAC sites was used. Forty interviewers were interviewed ( $n = 40$ ;  $40/308 = 13\%$ ) from five NACs. Framework analysis was used to code and categorise data into themes.

**Results:** Interviewers' motivation to take part as interviewers were largely related to their sense of duty, their desire to contribute their expertise to the process, and their desire to have input into selection of GP Registrars; a sense of duty to their profession; and an opportunity to meet with colleagues and future trainees. Interviewers also highlighted factors hindering motivation, which sometimes included the large number of candidates seen in one day.

**Conclusion:** Interviewers' motivation for contributing to the MMIs was largely related to their desire to contribute to their profession, and ultimately improve future patient care. Interviewers recognised the importance of interviewing, and felt their individual roles made a crucial contribution to the profession of general practice. Good administration and leadership at each NAC is needed. By gaining an understanding of interviewers' motivation, and enhancing this, engagement and retention of interviewers may be increased.

*The Ultimate Guide to the Multiple Mini Interview (MMI)* Hayk Hakobyan, 2017-07-22

When I was applying to medical school and received interviews with the multiple mini interview MMI format I had no idea what I was getting myself into Despite researching online reading other books I found on Amazon and gathering information from friends I did not fully grasp the true concept behind the MMI until attending seven of these interviews With each interview I got better in responding and learned from my mistakes from the previous interview This constant real life practice gave me enormous insight into WHAT it really takes to do well on the MMI I noticed I was not able to find any of this information anywhere else which led me to make this eBook I like to think that responding to a scenario is an art I say this because everyone will be responding differently and will approach the situation at different angles In the past I have heard that there is not a single right answer but there are many wrong answers I disagree with this partially and would like to rephrase this There is a common RIGHT approach to every scenario and there are many WRONG approaches you can take In this eBook I will begin by explaining what the MMI is all about and later outline the PRINCIPLES that you should learn The MMI is all about these principles If you learn the main principle you will confidently respond to the scenario despite the extra fluff or different details they provide This is how you do well at the MMI Along with an explanation for each principle I have also generated key buzzwords that you should mention during your response These buzzwords are what drives the response home It is what makes the interviewer think This person knows what he or she is talking about Despite the explanations and buzzwords I took the liberty to include numerous example scenarios and an ideal response for each The best practice is dissecting these questions and their responses and learning the main concept behind each question You will notice the frame of thinking understand the principle and recognize the lingo necessary to effectively answer each MMI question This is how you build confidence I have also included chapters on the role playing station the teamwork station the typing writing station and a chapter filled with

example scenarios you may practice on your own After reading through this eBook you will be poised to attend any multiple mini interview and answer any MMI related question effectively I am 100% confident in this statement *Education, Research and Perspectives*, 2009 **BMJ**, 2006 Behavioral Medicine A Guide for Clinical Practice 5th Edition Mitchell D.
