The themes that recur across stories illustrate that the issues the women face are not just about individual struggle they demonstrate that major issues in Canada's social system have been neglected in public policy In order for these issues to be addressed we need to challenge the flawed public policies and the negative discourse that continue to marginalize single mothers in terms of the opportunities in their own lives and in terms of how they are understood by other Canadians The first person narratives of the struggles and issues faced by low income single mothers provide narrative richness and are augmented by

introductory and concluding chapters that draw the narrative themes together and offer overarching discussion and analysis **Jodi** Richard M. Brodsky, 2002 People v.
