

HTC Desire 10 pro

Inserting your SIM and microSD cards

IMPORTANT

Use a standard-size SIM only

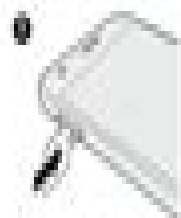

Don't use a micro or regular SIM card and insert it into the same SIM slot. It's thicker than the standard-size SIM card and won't get stuck in the slot.

Don't disassemble any part of the phone

Don't try to open the phone or remove the battery by force. This may damage the phone or its electronics and will void the warranty.

Don't throw the tray away

You need it to insert your new SIM and microSD cards.

- 1 With the phone facing up, insert the top of the tray just below the cover with your thumb or a small flat paperclip into the tray slot hole.

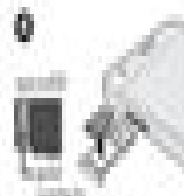

Push the top of the tray into the hole until the card tray pops, and then gently pull the tray out.

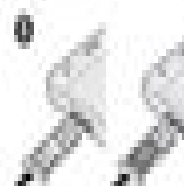

- 2 With the gold contacts facing down, place your new SIM card into the SIM 1 and SIM 2 holders of the tray. Make sure to align the notches of contacts to the notches on the holders.

Reset its default. SIM 1 will connect to the 4G LTE network, and SIM 2 will connect to 3G. To find out how to change network connection settings for your new SIM cards, see the next page.

- 3 SIM 1 and SIM 2 are labeled on the same holder in the

tray. SIM 1 always goes around your new SIM card or around your old SIM card and then place the microSD card in the SD holder with the gold contacts facing down and ensure it's facing in.

- 4 When you need to use your microSD card, remove your current new SIM card and then place the microSD card in the SD holder with the gold contacts facing down and ensure it's facing in.

- 5 When reinserting the tray, make sure it is facing up so that the cards don't fall out. Gently slide the top of the tray into the hole.

Restarting the phone

To restart your phone when it doesn't respond to touch screen or button presses, press and hold the POWER and VOLUME DOWN buttons for at least 10 seconds. When the phone restarts, release the buttons.
