

# Writing a Memoir

## What is a Memoir?

Memoir comes from the Latin word "memoria" meaning memory. A memoir is a type of autobiography. An autobiography is a full-length story written by yourself about your life, usually written at the end of a career or lifetime and usually written in chronological order. A memoir differs in style from the autobiography in that it tends to deal with more specific periods of themes in your life. The types of memoirs that are published and sold in bookstores are written by people for their own reasons and for any number of reasons.

## What Sort of Events are in a Published Memoir?

Anything and everything can be in a memoir, and they can be in any emotional range; however, the most popular are inspirational memoirs and the Mis Lit (Misery Literature) memoir, with memoirs about war survivors and adults who have suffered from addictions, abuse and depression.

## Why Do People Write a Memoir?

Some reasons people write a memoir are:

- They feel they have an important story to tell. Maybe they are the sole survivor of a disaster or have been treated badly by a big company. Maybe they have been misrepresented in the press or worked for a celebrity. Whatever the story, if they feel that a particular part of their life is an interesting story they choose to write it in a memoir.
- For future generations. Maybe they are struggling through a divorce and want their children to understand in their adulthood what had happened. Maybe they want their grandchildren to know them better. Maybe they have emigrated and they want future generations to know what their heritage is. A memoir can be like a piece of them reaching out to their descendants long after they have gone.
- To document their success, their rags to riches struggle, their journey from crackpot inventor to innovative millionaire, or their struggles as a freelance writer leading eventually to that one best seller. Both inspirational and interesting, everyone likes to read how people triumph in the face of diversity.
- To document how they handle an illness. Whether they have an illness which will reduce their mobility, sight or attention span or have been diagnosed with a degenerative disease a memoir can be a good way to document their illness and treatment for others in a similar situation to read or to help their relatives understand how they may be feeling.
- As therapy. Writing or talking about their feelings and past events can be an excellent way to work through them in their head and find some peace and resolution.
- To remember. Writing a memoir can help to unlock memories they had forgotten they had and as a result can help them to understand themselves better.
