**Palestine Ltd.** Toufic Haddad, 2016-07-28 Since the 1993 Oslo Accords the Occupied Palestinian Territory has been the subject of extensive international peacebuilding and statebuilding efforts coordinated by Western donor states and international finance institutions Despite their failure to yield peace or Palestinian statehood the role of these organisations in the Israeli Palestinian conflict is generally overlooked owing to their depiction as tertiary actors engaged in technical missions

**Disrupting Investigative Journalism** Amanda Gearing, 2021-06-29 This book makes the case for the enormous potential embodied in investigative journalism if reporters collaborate in the digital sphere and engage with emerging techniques and technologies Bringing together personal narratives from investigative journalists who have successfully found verified and published stories using social media platforms and Web based communications Disrupting Investigative Journalism explores the risks and benefits that come from this kind of digital collaboration Citing how digital connection has enabled reporters around the world to form the International Consortium of Investigative Journalists which in turn led to such global news sensations as the Panama Papers and the Paradise Papers this book makes a practical argument for how the daily work of investigative journalism can change to capture enormous latent potential This is a valuable text for students and scholars in the fields of investigative journalism media and digital communication

**Neighbourhood Policy and the Construction of the European External Borders** Filippo Celata, Raffaella Coletti, 2015-06-11 This book looks both backward and forward with regard to the European Union's political strategies towards its neighbouring countries By bringing together the perspectives of critical geopolitics policy studies and border studies it presents a comprehensive review of the European Neighbourhood Policy and how it impacts the ongoing construction of the EU's external frontiers Is the EU committed to promoting integration in a wider European space or is a fortress Europe emerging where the strengthening of internal cohesion is coupled with the militarisation of its external borders The book aims to problematize this question by showing how the EU's external policies are based on a mixture of openness and closure inclusion and exclusion cooperation and securitisation The European Neighbourhood Policy is a controversial strategy where regionalization and bordering homogenisations and differentiations centrifugal and centripetal forces proceed side by side in an explicit attempt to construct a selective mobile and fragmented border A specific focus is devoted to the diversity of geo strategies the EU is pursuing in its neighbouring countries and regions macro regional strategies and cross border cooperation initiatives as new scales of cooperation and the role of other global players

**Intelligence Elites and Public Accountability** Vian Bakir, 2018-04-17 This book provides a definitive overview of the

relationships of influence between civil society and intelligence elites The secrecy surrounding intelligence means that publication of intelligence is highly restricted barring occasional whistle blowing and sanitised official leaks These characteristics mean that intelligence if publicised can be highly manipulated by intelligence elites while civil society's ability to assess and verify claims is compromised by absence of independent evidence There are few studies on the relationship between civil society and intelligence elites which makes it hard to form robust assessments or practical recommendations regarding public oversight of intelligence elites Addressing that lacuna this book analyses two case studies of global political significance The intelligence practices they focus on contemporary mass surveillance and Bush era torture intelligence policies have been presented as vital in fighting the Global War on Terror enmeshing governments of scores of nation states while challenging internationally established human rights to privacy and to freedom from torture and enforced disappearance The book aims to synthesise what is known on relationships of influence between civil society and intelligence elites It moves away from disciplinary silos to make original recommendations for how a variety of academic disciplines most likely to study the relationship between civil society and intelligence elites international relations history journalism and media could productively cross fertilise Finally it aims to create a practical benchmark to enable civil society to better hold intelligence elites publicly accountable This book will be of great interest to students of intelligence studies surveillance media journalism civil society democracy and IR in general

#### **Reconceptualising Unaccompanied Child Asylum Seekers and the Law** Jennifer L. Whelan, 2022-09-30

Unaccompanied child asylum seekers are amongst the world's most vulnerable populations and their numbers are increasing The intersection of their age their seeking asylum and separation from their parents creates a specific and acute triple burden of vulnerability Their precariousness has long been recognised in international human rights law Yet human rights

based responses have been subordinated to progressive global securitisation of irregular migration through interception interdiction extraterritorial processing and immigration detention Such an approach necessitates an urgent paradigm shift in how we comprehend their needs as children the impact of punitive border control laws on them and the responsibility of States to these children when they arrive at their borders seeking asylum This book reconceptualises the relationship between unaccompanied child asylum seekers and States It proposes a new conceptual framework by applying international human rights law childhood studies and vulnerability theory scholarship in analysing State obligations to respond to these children This framework incorporates a robust analysis of the operation and impact of laws on vulnerable populations a taxonomy for articulating the gravity of any consequent harms and a method to prioritise recommendations for reform The book then illustrates the framework's utility using Australia's treatment of unaccompanied children as a case study This book illuminates key learnings from human rights law childhood studies and vulnerability theory and transforms them into a new roadmap for law reform As such it will be a valuable practice based resource for practitioners non government organisations advocates policymakers and the general public interested in advocating for the rights of vulnerable populations as well as for academics researchers and students of human rights law refugee law childhood studies and vulnerability studies **The**

**Ultimatum** Dick Wolf, 2015-06-16 A detective tracks a serial sniper who uses airborne technology to hunt his prey in this thriller from the creator of the Law Order franchise New York Times bestselling author When a leaker named Verlyn Merritt releases sensitive documents from the NYPD Intelligence Division to WikiLeaks some of the deadliest criminals have access to Detective Jeremy Fisk's unlisted home address Within hours three mysterious assailants arrive at his Sutton Place apartment Who are they and why do they want Fisk dead Authorities quickly identify and arrest Merritt But the case takes a sinister twist when an anonymous third party makes threats if authorities don't release Merritt immediately Forced from his home and his bank accounts drained Fisk confronts Chay Maryland a reporter who has been covering Merritt's case Fisk wants the journalist's help to get close to the leaker to find out what Merritt really wants and who else is involved The investigation is nearly derailed when a serial sniper begins shooting people on the street who seem to have no connection to Merritt's case The killer's aim is eerily accurate and Fisk believes the shooter might be using a drone rigged with unusual sighting capabilities Then the sniper contacts the New York Times and promises to kill one person every day for the greater good of the citizens of America With the clock ticking and millions of lives at stake Fisk and Chay must find the mastermind before he can wreak havoc on a city paralyzed by fear Interest limitation for tax legislation in the European Union. An

obstruction of fundamental freedoms? The Duy Anh Nguyen, 2023-07-31 Bachelor Thesis from the year 2022 in the subject Law Tax Fiscal Law grade 2.0 Rhine Waal University of Applied Sciences language English abstract Tax planning is a practice used by many corporations in order to minimise their tax paid while being able to maximise their profits One common way to undertake such conduct is by increasing the negative components of the tax base computation for example

the interest expense deductibility This practice is deemed harmful by many lawmakers as it will imperil its tax legislation Hence to tackle this behaviour the European Union has adopted an Anti Tax Avoidance Directive in 2016 where the rules on interest expense as a tax planning tool are addressed in Article 4 The Directive is to be transposed into the Member States tax laws Nevertheless there are some concerns on the comparability between the national rules implementing this Directive and the existing fundamental freedoms that are the cornerstone of the European Union This thesis examines the possible infringements of the Directive s transposition to the fundamental freedoms enshrined in the Treaty of the Functioning of the European Union Some recommendations with regard to ameliorating the identified incompatibilities are also given by using comparative legal research
