systematically analyzes residential carbon emissions and energy costs and prioritizes solutions based on highest carbon reductions and monetary returns yielding results that are often surprising The book enables readers to dramatically reduce their carbon emissions far below the levels targeted under the Kyoto Protocol At the same time readers implementing the recommendations will save an average of 15 000 in energy costs over the next five years      **Prohibition Chicago** Wayne Klatt,2023-04-03 The high times the rubouts the payoffs they re all here in Wayne Klatt s account of the Windy City s wildest years The entire country the world was shocked and entertained by what went on in Chicago during Prohibition Learn how it all happened from a step by step speakeasy set up to the White Sox scandal to the St Valentine s Day Massacre Pull back the gauzy curtains of the gaudy era when Al Capone contributed to Mayor William Thompson s campaign and Governor Len Small used gangsters to fix his embezzlement trial After studying every day of the Toddlin Town s stint in Prohibition author Wayne Klatt shows how bootleg gangs came into power and demolishes the myth of a North Side South Side rivalry

**Brands and Their Companies** ,2007      **New York Magazine** ,1988-10-31 New York magazine was born in 1968 after a run as an insert of the New York Herald Tribune and quickly made a place for itself as the trusted resource for readers across the country With award winning writing and photography covering everything from politics and food to theater and fashion the magazine s consistent mission has been to reflect back to its audience the energy and excitement of the city itself while celebrating New York as both a place and an idea      *The New Yorker* Harold Wallace Ross,William Shawn,Tina Brown,David Remnick,Katharine Sergeant Angell White,Rea Irvin,Roger Angell,1972      **The Light Car** ,1954      **Light Car and Cyclecar** ,1954      **Motorcycle Headlamps** Motorcycle Lighting Committee,2020 This SAE Standard provides test procedures performance requirements design guidelines and installation guidelines for motorcycle headlamps This revision to SAE J584 was developed by a task force containing members of the Lighting Systems Group and the Specialized Vehicle and Equipment Motorcycle Committee The photometric test point tables were updated to figures The titles were updated to match the current classifications of motorcycles in SAE J213 and the application was changed to only be dependent on speed not engine size A section was added to allow additional light with the low beam or high beam while the motorcycle is leaning Bank lighting was defined for this application The UN regulations use the term bend lighting but SAE already uses that term in adaptive forward lighting systems The photometric requirements started at the HV line but was moved to 0.5U to work with existing SAE test points An option was added to aim the headlamp to the low beam as opposed to the high beam This was added to encourage harmonization with UN motorcycle regulations as well as automotive regulations The aiming method is based on SAE J1383 SAE J583 and the UN symmetrical beam headlamp regulation Discussion occurred on the value of the maximum gradient and the position of the gradient when aiming The aiming adjustment requirements were reviewed extensively After initially retaining the requirement of 4 degrees and adding an allowance as a function of vehicle pitch angle a simplified wording was agreed on which requires vertical adjustment and allows horizontal adjustment The text was moved

to 6 4 The aiming adjustment tests clarity of hot spot and inward force test sections were all removed In addition to the items explained above the following updates have been made Updated the format of the document to current SAE standards Added SAE J2595 and SAE J2650 to 2 1 1 Added 2 2 Added SAE J387 to 2 2 1 Revised the definition of motorcycle headlamp Added definition for bank lighting Added optical axis mark and trademark indication Updated the names of SAE J575 tests in 5 1 Moved beam aim during photometric test section to 5 1 1 and 6 1 1 Reorganized photometric design requirements into appropriate sections under test and performance requirements Added a note allowing adaptive driving beam devices SAE J3069 was not referenced because it is written for automobiles not motorcycles Revised wording in 7 1 The task force discussed removing the single beam photometric figures but did not receive enough useful feedback on whether it was feasible so it remains in the document The task force also developed an additional set of harmonized photometric figures that would function as a harmonized pattern with the SAE and UNECE requirements These figures were checked by several headlamp manufacturers using existing lamp photometry to verify the feasibility of the requirements However the UN body is working toward a significant modification to the existing regulations so the SAE J584 task force is delaying incorporation of the harmonized figures until the new UN regulations are established *Motorcycle Safety* Jeffrey N. Gardiner, 2013 The annual number of motorcycle rider fatalities in the United States increased from 2294 in 1998 to 5290 in 2008 National Highway Traffic Safety Administration 2010 Many multi vehicle motorcycle crashes involve right of way violations where another vehicle turns in front of or crosses the path of an on coming motorcycle Improving the frontal conspicuity of motorcycles with auxiliary forward lighting may reduce these types of crashes This book describes some recent studies sponsored by NHTSA on motorcycle conspicuity *Motorcycle Auxiliary Front Lamps* Motorcycle Lighting Committee, 2018 This engineering design specification provides parameters and general requirements for auxiliary front lamps to be used on motorcycles This document has been updated to the latest format require by TSB requirements This was a major change to the structure of the document however the content did not change significantly with the following exception We added a new optional photometric table 2 to provide an optional beam that is significantly wider and will supplement the headlamp whether it is used in conjunction with the low beam or high beam and we endeavored to make the document technology neutral changing references to bulbs for example and replacing it with light source **Practical Lighting Design with LEDs** Ron Lenk, Carol Lenk, 2017-03-10 The essential how to guide to designing and building LED systems revised and updated The second edition of Practical Lighting Design with LEDs has been revised and updated to provide the most current information for developing light emitting diodes products The authors noted authorities in the field offer a review of the most relevant topics including optical performance materials thermal design and modeling and measurement Comprehensive in scope the text covers all the information needed to design LEDs into end products The user friendly text also contains numerous drawings and schematics that show how things such as measurements are actually made and show how circuits

actually work Designed to be practical the text includes myriad notes and illustrative examples that give pointers and how to guides on many of the book s topics In addition the book s equations are used only for practical calculations and are kept at the level of high school algebra This thoroughly expanded second edition offers New chapters on the design of an LED flashlight USB light automotive taillight and LED light bulbs A practical and user friendly guide with dozens of new illustrations The nitty gritty day to day engineering and systems used to design and build complete LED systems An essential resource on the cutting edge technology of Light Emitting Diodes Practical Lighting Design with LEDs helps engineers and managers meet the demand for the surge in usage for products using light emitting diodes with a practical guide that takes them through the relevant fields of light electronic and thermal design
