Memo For Mathematics Paper March 2015

Camilla Fitzsimons

Memo For Mathematics Paper March 2015:

On Non-Generic Finite Subgroups of Exceptional Algebraic Groups Alastair J. Litterick, 2018-05-29 The study of finite subgroups of a simple algebraic group G reduces in a sense to those which are almost simple If an almost simple subgroup of G has a socle which is not isomorphic to a group of Lie type in the underlying characteristic of G then the subgroup is called non generic This paper considers non generic subgroups of simple algebraic groups of exceptional type in arbitrary characteristic

Drawing Futures Bob Sheil, Frédéric Migayrou, Luke Pearson, Laura Allen, 2016-11-11 Drawing Futures brings together international designers and artists for speculations in contemporary drawing for art and architecture Despite numerous developments in technological manufacture and computational design that provide new grounds for designers the act of drawing still plays a central role as a vehicle for speculation There is a rich and long history of drawing tied to innovations in technology as well as to revolutions in our philosophical understanding of the world In reflection of a society now underpinned by computational networks and interfaces allowing hitherto unprecedented views of the world the changing status of the drawing and its representation as a political act demands a platform for reflection and innovation Drawing Futures will present a compendium of projects writings and interviews that critically reassess the act of drawing and where its future may lie Drawing Futures focuses on the discussion of how the field of drawing may expand synchronously alongside technological and computational developments The book coincides with an international conference of the same name taking place at The Bartlett School of Architecture UCL in November 2016 Bringing together practitioners from many creative fields the book discusses how drawing is changing in relation to new technologies for the production and dissemination of ideas

Medial/Skeletal Linking Structures for Multi-Region Configurations James Damon, Ellen Gasparovic, 2018-01-16 The authors consider a generic configuration of regions consisting of a collection of distinct compact regions in which may be either regions with smooth boundaries disjoint from the others or regions which meet on their piecewise smooth boundaries in a generic way They introduce a skeletal linking structure for the collection of regions which simultaneously captures the regions individual shapes and geometric properties as well as the positional geometry of the collection The linking structure extends in a minimal way the individual skeletal structures on each of the regions This allows the authors to significantly extend the mathematical methods introduced for single regions to the configuration of regions

Community Education and Neoliberalism Camilla Fitzsimons, 2017-03-01 This book explores community education in Ireland and argues that neoliberalism has had a profound effect on community education Rather than retain its foundational characteristics of collective equality led principles and practices community education has lost much of its independence and has been reshaped into spaces characterised by labour market activation vocationalisation and marketisation These changes have often though not always run contrary to the wishes of those involved in community education creating enormous tensions for practitioners course providers and participants

School World Order John Adam Klyczek, 2019-10-11 For more than twenty years Charlotte Thomson Iserbyt has been warning the American people of the New World Order stratagem to overthrow democratically elected school boards with public private partnerships between the federal government and globalist corporations In this volume John Klyczek expounds on Iserbyt's theories by tracing her work to the present moment as a last ditch effort to stop the corporatization of education Klyczek explores how the infamous Yale Secret Society Skull and Bones utilized Robber Baron philanthropy and stimulus response psychological conditioning to institute a corporatist system of workforce training for a fascistically planned economy He then explains how this system is being upgraded to a technocratic education system of corporatist school choice through virtual education technologies that program students for a globally planned economy School World Order will teach you the ulterior agenda behind the ed tech movement data mining students for research and development into artificial intelligence and transhumanist biotechnologies for the establishment of an authoritarian post human society

The Many Passions of Michael Hardwick Martin Padgett, 2025-06-03 The little known story of the man who sparked a groundswell of gay activism after a wrongly decided Supreme Court decision Michael Hardwick had no idea that when a police officer stood at his bedroom door on August 3 1982 he would become a face of the gay rights movement Arrested for sodomy Hardwick sued for his right to privacy all the way to the Supreme Court even as the HIV AIDS epidemic began its toll When he lost his era defining case inspired a half million people to protest and the ruling became one of the most reviled of its time Today Bowers v Hardwick reverberates again as the rights of privacy underpinning legal abortion contraception and same sex relationships come under fire But the individual Michael Hardwick has faded from memory his story has been relegated to legal arcana with only a pale rendering of his life outside of the Supreme Court case In The Many Passions of Michael Hardwick Martin Padgett assembles the complete kaleidoscope of Hardwick's life as a child of Stonewall as an artist and as one of many thousands claimed by the HIV AIDS epidemic Blending biography and history Padgett traces how Hardwick became a political symbol first by chance then by his own choice even when it made him an object of derision and scrutiny From the then unopened archives of legal scholar Laurence Tribe who argued Hardwick's case alongside the ACLU to hours of new interviews with Hardwick's

surviving family and friends Padgett emerges with a story of someone who stood up for equality despite the infamy he knew would attach to him He reveals how Hardwick forced America to come to grips with queer people and to acknowledge its moral failures toward some of its most marginalized citizens In *The Many Passions of Michael Hardwick* Martin Padgett reveals the halting shifts in American sexual politics over the last half century posing urgent questions about the deliberations of the Supreme Court and returning to Hardwick the humanity stolen from him decades ago *The Collapse of Venezuela* Francisco Rodríguez,2025-03-15 *The Collapse of Venezuela* documents Venezuela s economic implosion as politicians adopted strategies that severely harmed the economy in their struggle for power Between 2012 and 2020 Venezuela suffered the largest economic contraction ever documented outside of wartime This collapse was caused not just by the failure of an economic model but also the deeper failure of its political system to manage the conflicts inherent to a polarized society *The Collapse of Venezuela* argues that when the stakes of power are high politicians have an incentive to adopt political strategies that directly harm the economy Author Francisco Rodríguez describes these scorched earth strategies and shows how politicians used these methods to target the Venezuelan economy in their fight for power Ultimately the conflicting sides have trapped the economy in a catastrophic stalemate that has destroyed the country s living standards and turned the economy into a political battlefield By charting Venezuela s experience with scorched earth politics Rodríguez reveals an essential cautionary tale for other democracies around the globe *Women in Science Now* Lisa M. P. Munoz,2023-10-31 Silver Medal in the Social Change and Social Justice Category 2024 Nautilus Book Awards Winner 2024 Choice Outstanding Academic Title Women working in the sciences face obstacles at virtually every step along their career paths From subtle slights to blatant biases deep systemic problems block women from advancing or push them out of science and technology entirely *Women in Science Now* examines solutions to this persistent gender gap offering new perspectives on how to make science more equitable and inclusive for all This book shares stories and insights of women from a range of backgrounds working in various disciplines illustrating the journeys that brought them to the sciences the challenges they faced along the way and the important contributions they have made to their fields Lisa M P Munoz combines these narratives with a wealth of data to illuminate the size and scope of the challenges women scientists face while highlighting research based solutions to help overcome these obstacles She presents groundbreaking studies in social psychology and organizational behavior that are informing novel approaches for combating historic and ongoing inequities Through a combined focus on personal experiences and social science research this timely book provides both a path toward greater gender equity and an inspiring vision of science and scientists **Committee Meeting of Joint Committee on the Public Schools** New Jersey.
