Polity and Crisis Massimo Fichera,Sakari Hänninen,2016-04-22 European integration is an open ended ongoing process which has been deeply challenged by integral world capitalism This study explores the present EU foundational dilemma looking at the problematic relationship between the ideal model of integration and the reality of the 21st century Including contributions from leading theorists this volume explores the ways and extent to which the present European crisis could create a politico legal space for new possibilities and opportunities for action The authors discuss the current role of the EU and whether it aspires to be a democratic polity or a functional organization based on inter governmental bargaining The chapters question whether the future of European integration after the crisis will be paved by decisions which conflict with its Treaty basis and how it might come up with alternatives which would do more than echo the compulsions of the global market Issues are analysed from a historical perspective to see what can be learnt from its past and to explore the options for the future With contributions from prominent international legal and political scholars the book will be of interest to academics students and policy makers working in these areas

Inequality and Uneven Development in the Post-Crisis World Sebastiano Fadda,Pasquale Tridico,2017-07-14 In the years following the financial crash two issues have become central to the debate in economics inequality and the uneven nature of sustainable development These two issues are at the core of this book which aims to explain three key questions why inequality has increased so much in the last three decades why most advanced economies are stagnating or are experiencing moderate economic growth and why even where economic growth is occurring the quality of that growth is questioned Inequality and Uneven Development in the Post Crisis World is divided into three parts The first part concerns the theoretical aspects of inequality and ethical issues regarding economics and equality The second part explores empirical evidence and policy suggestions drawing on the uneven levels of development and unprecedented levels of inequality experienced among advanced economies in the context of global financial capitalism The third part focuses on sustainable development issues such as full employment social costs of global trade liberalization environmental sustainability and ecological issues Along with inequality these issues are central for capitalism and for economic

development This volume is of interest to those who study political economy sustainable development and social inequality
