Southgate, Laura

Memorandum For Business Studies 2014 November Final Exam:

ASEAN Resistance to Sovereignty Violation Southgate, Laura, 2019-05-08 Available Open Access under CC BY NC licence Examining how the Association of Southeast Asian Nations ASEAN has responded to external threats over the past 50 years this book provides a compelling account of regional state actions and foreign policy in the face of potential sovereignty violation The author draws on a large amount of previously unanalysed material including declassified government documents and WikiLeaks cables to examine four key cases since 1975 Taking into account state interests and the role of external powers the author develops the vanguard state theory to explain ASEAN state responses to sovereignty violation which it is argued has universal applicability and explanatory power Film Policy in a Globalised Cultural Economy John Hill, Nobuko Kawashima, 2018-12-07 The past two decades have witnessed major changes in film industries worldwide in response to both economic globalisation and technological developments The dominant position of Hollywood movies in the global film market has remained largely uncontested but Hollywood itself has become increasingly international in its operations whilst regional screen industries such as those in East Asia and in the Indian subcontinent have re emerged and developed new forms of collaboration The advent of digital technologies has also transformed the content of films and the ways in which they are made and consumed Such changes in turn have posed new economic and cultural challenges for policy makers around the world and led to a degree of rethinking of how film policy objectives are to be conceived defined and implemented This collection brings together a range of international scholars from the USA Europe and Asia to consider how film policy has responded to the various economic technological and political shifts shaping the global film industry and to identify the many tensions between global and local economic and cultural and public and private policy objectives that have been the result of these changes This book was originally published as a special issue of the International Journal of Cultural Policy The Accountant, 1973 The Closing of the Liberal Mind Kim R. Holmes, 2017-12-12 A former U S Assistant Secretary of State and currently Acting Senior Vice President for Research at The Heritage Foundation Kim R Holmes surveys the state of liberalism in America today and finds that it is becoming its opposite illiberalism abandoning the precepts of open mindedness and respect for individual rights liberties and the rule of law upon which the country was founded and becoming instead an intolerant rigidly dogmatic ideology that abhors dissent and stifles free speech Tracing the new illiberalism historically to the radical Enlightenment a movement that rejected the classic liberal ideas of the moderate Enlightenment that were prominent in the American Founding Holmes argues that today s liberalism has forsaken its American roots incorporating instead the authoritarian anti clerical and anti capitalist prejudices of the radical and largely European Left The result is a closing of the American liberal mind Where once freedom of speech and expression were sacrosanct today liberalism employs speech codes trigger warnings boycotts and shaming rituals to stifle freedom of thought expression and action It is no longer appropriate to call it liberalism at all but illiberalism a set of ideas in politics

government and popular culture that increasingly reflects authoritarian and even anti democratic values and which is devising new strategies of exclusiveness to eliminate certain ideas and people from the political process Although illiberalism has always been a temptation for American liberals lurking in the radical fringes of the Left it is today the dominant ideology of progressive liberal circles This makes it a new danger not only to the once venerable tradition of liberalism but to the American nation itself which needs a viable liberal tradition that pursues social and economic equality while respecting individual liberties

Yearbook of International Organizations 2014-2015 (Volume 4) Union Of International Associations, Union of International Associations, 2014-09-17 The Yearbook of International Organizations provides the most extensive coverage of non profit international organizations currently available Detailed profiles of international non governmental and intergovernmental organizations IGO collected and documented by the Union of International Associations can be found here In addition to the history aims and activities of international organizations with their events publications and contact details the volumes of the Yearbook include networks between associations biographies of key people involved and extensive statistical data Providing both an international organizations and research bibliography Volume 4 cites over 46 000 publications and information resources supplied by international organizations and provides nearly 18 000 research citations under 40 subject headings This volume also includes a research bibliography on international organizations and transnational associations
