Checking Oil Level

1. Oil level should be checked every time before riding the machine.
2. A sight glass for checking oil level is fitted to the right crankcase cover.

3. Be sure the machine is parked on a level surface to ensure an accurate reading.
4. Level should be checked after the engine has been running for a few minutes. Shut it off and let the oil settle for a minute or so.
5. Oil level should be between the upper and lower level marks inscribed on the crank-
