

## 18.3 Building the Tree of Life

### Lesson Objectives

-  Name the six kingdoms of life as they are currently identified.
-  Explain what the tree of life represents.

### Lesson Summary

**Changing Ideas About Kingdoms** As biologists learned more about the natural world, they realized that Linnaeus's two kingdoms, Animalia and Plantae, did not represent all life.

- ▶ Researchers found that microorganisms were very different from plants and animals. They were placed in their own kingdom, called Protista.
- ▶ Then, yeast, molds, and mushrooms were separated from plants and placed in their own kingdom, called Fungi.
- ▶ Because bacteria lack nuclei, mitochondria, and chloroplasts, they were separated from Protista and placed in another new kingdom, called Monera.
- ▶ In the 1990s, kingdom Monera was divided into two kingdoms: Eubacteria and Archaeobacteria. The six-kingdom system of classification includes the kingdoms Eubacteria, Archaeobacteria, Protista, Fungi, Plantae, and Animalia.
- ▶ Genetic analysis revealed that two prokaryotic groups are even more different from each other, and from Eukaryotes, than previously thought. This discovery led to the creation of a new taxon, called the domain. The **domain** is a larger, more inclusive category than a kingdom. The three domain system consists of: Bacteria, Archaea, and Eukarya.
- ▶ Domain Bacteria corresponds to the kingdom Eubacteria. Domain Archaea corresponds to the kingdom Archaeobacteria. Domain Eukarya corresponds to kingdoms Fungi, Plantae, Animalia, and "Protista."
- ▶ Quotations are used for the old kingdom Protista to signify that it is not a valid clade.

**The Tree of All Life** The tree of life shows current hypotheses regarding evolutionary relationships among taxa within the three domains of life.

- ▶ The domain **Bacteria** includes unicellular organisms without a nucleus. They have cell walls containing a substance called peptidoglycan.
- ▶ The domain **Archaea** also includes unicellular organisms without a nucleus. These organisms have cell walls that do not contain peptidoglycan.
- ▶ The domain **Eukarya** includes the four remaining kingdoms: "Protista," Fungi, Plantae, and Animalia. All members of the domain Eukarya have cells with a nucleus.
  - Most members of the kingdom "Protista," are unicellular organisms. Some Protista are photosynthetic; others are heterotrophs.
  - Most members of the kingdom Fungi are multicellular, and all members of this kingdom are heterotrophs with cell walls containing chitin.
  - All members of the kingdom Plantae are multicellular and photosynthetic. Most plants cannot move about, and their cells have cell walls.
  - All members of the kingdom Animalia are multicellular heterotrophs. Most animals can move about, and their cells lack cell walls.

**Author: 2024 Life-Dispensing Magazine, Vol. 2, Issue 2** The Shulammite Divine, 2025-11-30 In today s Christianity there is an erroneous diabolical teaching that has pervaded Christendom for centuries that is the heretical teaching of the eradication of the sinful nature and the Cross of Christ The origin of sin is revealed in Isaiah 14:12-15 and Ezekiel 28:13-15 with Lucifer as the Daystar rebelled against God and became Satan His adversary Since unrighteousness was found in Satan sin entered into the world This rebellious angel was judged by God thus awaiting execution by the God created man However as previously mentioned man became insubordinate disobedient and rebelled against God by partaking of the tree of the

knowledge of good and evil thus Satan's sinful nature was imparted into fallen man According to Genesis 3:1-7 man's fall is revealed with its negative and dreadful ramifications Essentially by man partaking of the wrong tree Satan usurped man by entering into his body and became the very sinful nature within him Romans 7:8, 11, 17, 20 Thus fallen man has the indwelling sinful nature Furthermore man's fallen body was transmuted into the flesh of sin Romans 7:18 Additionally man's body, soul and human spirit were fully devastated by the fall Also Satan's evil thoughts, feelings and will were injected into man's mind, emotion and will thus contaminating man's entire being Consequently man's human spirit became fully deadened, stagnated and alienated from the life of God Ephesians 2:1, 5, 4, 18 As a victim of death man became a constituted sinner Romans 5:12, 14, 19, 1 Corinthians 15:22 Subsequently God's eternal purpose and planned economy which was for man to express Him in His image and represent Him with His dominion was compromised What is God's Divine New Testament Economy God's divine New Testament economy is to make man the same as He is in life and nature but not in the Godhead And to make Himself one with man and man one with Him thus to be enlarged and expanded in His expression that all His divine attributes may be expressed in human virtues Genesis 1:26, 27 Ephesians 3:8, 11, 1 Timothy 1:4 Romans 8:14, 15 Galatians 3:26, 4:7 Revelation 21:7 The next day he saw Jesus coming to him and said Behold the Lamb of God who takes away the sin of the world John 1:29
