*Middle Ages* Jacques Le Goff, 1993-04-15 In this pioneering work Jacques Le Goff examines both the creation of the medieval  
universities in the great cities of the European High Middle Ages and the linked origins of the intellectuals the first  
Europeans since the Classic Age to owe their livelihoods to their teaching and accumulation of knowledge The author s  
argument is that the intellectuals Abelard most typically were a new category of person neither monk nor knight with a new  
method scholastic dialectic and a new objective knowledge for its own sake For the first time in Spain France England and  
Germany the luxury of thinking and learning ceased to be the limited preserve of the higher echelons of the Church and the  
Court The effect the author shows was to bring about an irreversible shift in European culture This intellectual history of  
medieval Europe translated from the revised French edition of 1984 will be widely welcomed by students and scholars of the  
Middle Ages throughout the English speaking world      **Histoire de l'inquisition au moyen-âge** Henry Charles Lea, 1900

Weiler, Simon MacLean, 2006 This book brings together a group of leading experts on the political history of Germany and the medieval empire from the Carolingian period to the end of the Middle Ages Its purpose is to introduce and analyse key concepts in the study of medieval political culture The representation of power by means of texts buildings and images is a theme which has long interested historians However recent debates and methodological insights have fundamentally altered the way this subject is perceived opening it up to perspectives unnoticed by its pioneers in the middle of the twentieth century By taking account of these debates and insights this volume explores a series of fundamental questions How was power defined in a medieval context How was it claimed legitimized and disputed What were the moral parameters against which its exercise was judged How did different spheres of political power interact What roles were played by texts images and rituals in the maintenance of and challenges to the political order The contributors bring varied and original approaches to these and other questions illuminating the complex power relationships which determined the changing political history of medieval Germany      Les hommes de la fraternité: Au cœur du Moyen Age Michel Clévenot, 1986      Studies in Medieval Culture , 2016      The Mind of the Middle Ages, A.D. 200-1500 Frederick Binkerd Artz, 1965
