Activity Description

Master Teacher Lesson Planning Sheet

What was the process that your students went through to complete this lesson? First the students used the Internet using worldbook.com to choose an animal for their reports. I requested that each student pick a different animal. When a student made their choice I wrote it down on my clipboard. Then I gave them permission to print the information. Second I demonstrated how to read and find the facts needed for the reports. I modeled underlining the information and writing in your own words that information on the rough draft form. Third my students typed their reports using AlphaSmart units. I explained title, author, indenting, lines between title, author and text, and spaces between sentences. Fourth the students used Word Art to make a cover page with their title, name, and they inserted a picture of their animals.

How did you monitor student progress?

Teacher observation.

Was there a formative or an assessment that students were expected to follow?
