Limpopo's Legacy Anne Heffernan, 2019 Argues that the historical primacy of youth politics in Limpopo South Africa has influenced the production of generations of nationally prominent youth and student activists among them Julius Malema Onkgopotse Tiro Cyril Ramaphosa Frank Chikane and Peter Mokaba *Routledge Handbook of Gender and Corruption* Sope Williams, Maria Krambia Kapardis, Lisa A. Kihl, 2025-12-31 The Routledge Handbook of Gender and Corruption showcases the most innovative and exciting research being conducted in this area of study providing a comprehensive go to reference for all who are interested in the topic In the last two decades there has been an increasing awareness of the importance of understanding the nexus between gender and corruption in terms of understanding the way men and women experience corruption and the differential impact of anti corruption frameworks on men and women as well as an understanding of how women in different spaces affect the prevalence and kinds of corruption This Handbook examines these issues as well as the role of social and gender norms in relation to corruption This understanding is crucial for our ability to design anti corruption frameworks that are effective and do not create unintended consequences for any group Despite the importance of this issue there remains a lack of in depth analytical and geographically diverse investigations into the nexus of gender and corruption This book addresses this gap by providing a comprehensive multidisciplinary geographically balanced treatise on gender and corruption This book combines sectoral thematic and country specific studies to allow readers to easily compare differing perspectives and approaches on cutting edge issues and their implications for gender and corruption Key sectors such as education politics public procurement healthcare sport sanitation and immigration are considered as well as the role of new technologies in supporting whistleblowing This Handbook provides academics practitioners and graduate researchers of public policy public administration law and anti corruption with all of the tools they need to understand the nuances of gender and corruption *Election Update 2006 South Africa*, 2006

Contemporary South Africa and the Political Economy of Regional Development Methembe Mdlalose, Isaac Khambule, Nene Ernest Khalema, 2025-02-21 South Africa's struggle in balancing its domestic needs while playing a dynamic developmental role in the African region and global context exposes a complex web of relations shaped by its geostrategic location on the continent and the world and the staggering legacies of colonialism and apartheid As such understanding the complexities of the global economy and of South Africa's place in it is of great importance This book builds upon an existing body of literature which has demonstrated that while the post apartheid South African state has recast its nation building goals with advances having been made notably in the area of a stellar post apartheid constitution policy directives and

democratic political integration economic integration and policy implementation presents a projection of captured interests where big business concerns are entrenched in the post apartheid state s apparent neo liberal turn The main focus of the book is to contextualise issues relating to three main trends in global discourses on development which are significant for South Africa and indeed for the study of the political economy of regional development in the country from the prism of South Africa as a global capitalist state These trends include the impact of globalisation regionalisation and the marginalisation of South Africa and indeed the African continent in the global economy thus unpacking the possible role that South Africa might play in regional development This volume will be a valuable resource to academics researchers and students in the fields of regional studies economics and political theory as well as policymakers planners and local economic development practitioners
