Le Destin De Laura:

Literary Translation, Reception, and Transfer Norbert Bachleitner, 2020-09-21 The three concepts mentioned in the title of this volume imply the contact between two or more literary phenomena they are based on similarities that are related to a form of travelling and imitation or adaptation of entire texts genres forms or contents Transfer comprises all sorts of travelling with translation as a major instrument of transferring literature across linguistic and cultural barriers Transfer aims at the process of communication starting with the source product and its cultural context and then highlighting the mediation by certain agents and institutions to end up with inclusion in the target culture Reception lays its focus on the receiving culture especially on criticism reading and interpretation Translation therefore forms a major factor in reception with the general aim of reception studies being to reveal the wide spectrum of interpretations each text offers Moreover translations are the prime instrument in the distribution of literature across linguistic and cultural borders thus they pave the way for gaining prestige in the world of literature The thirty eight papers included in this volume and dedicated to research in this area were previously read at the ICLA conference 2016 in Vienna They are ample proof that the field remains at the center of interest in Comparative Literature , **Ténèbres 2013** Benoît Domis, 2013-05 Pour l'édition 2013 de Tenebres Benoit Domis a sélectionné 18 nouvelles d'auteurs français belges néerlandais et américains débutants et confirmés Les textes vont de la ghost story au gore en passant par toutes les couleurs du fantastique et de l'horreur *Travaux de littérature* Association pour la diffusion de la recherche littéraire (Boulogne, Hauts de Seine), 1996 **Reckoning with Millet's "Man with a Hoe," 1863-1900** Scott Allan, 2023-10-31 A revelatory exploration of one of Jean François Millet's most contentious paintings A monumentalizing portrayal of a peasant bowed over by brutal toil Man with a Hoe 1860-62 by Jean François Millet 1814-1875 is arguably the most art historically significant painting in the J Paul Getty Museum's collection of nineteenth century European art This volume situates the work in the arc of Millet's career and traces its fascinating and contentious reception from its scandalous debut at the 1863 Paris Salon to the years following its acquisition by American collectors in the 1890s The essays examine the painting's tumultuous public life beginning in France where critics attacked it on aesthetic and political grounds as a radical realist provocation through its transformative movement in the art market during the remaining years of the artist's life and following his death to its highly publicized arrival in California as a celebrated masterpiece In the United States it was enlisted to serve philanthropic interests became the subject of a popular poem and once again became embroiled in controversy in this case one that was strongly inflected by American racial politics This is the first publication dedicated to the work since its acquisition by the Getty Museum in 1985 **Romain Gary, Émile Ajar** Amélie Vrla, 2014-01-01 Dans son testament littéraire qui permet de jeter enfin la lumière sur l'affaire Ajar Romain Gary explique J'étais un auteur classé catalogué acquis ce qui dispensait les professionnels de se pencher vraiment sur mon œuvre et de la connaître Vous pensez bien pour cela il faudrait relire Et encore quoi Je le savais si bien que

pendant toute la durée de l'aventure je n'ai jamais redouté qu'une simple et facile analyse de texte venant me tirer de mon anonymat. Amalgame s'emploie à mener cette analyse de texte qui aurait pu permettre de prouver qu'Ajar n'était autre que Gary.

Étude de l'espace dans la trilogie sudiste de Julien Green Hsien-Lan Chen, 2003. Dans l'œuvre de Julien Green l'espace représente un élément primordial. Green est un écrivain qui cherche sans cesse à chapper à l'écoulement du temps par l'espace. Centrée sur une trilogie importante et singulière *Les Pays lointains*, *Les Étoiles du Sud* et *Dixie*, cette étude analyse l'espace romanesque comme un point de départ pour l'étude de l'ouvrage entier dont l'élément spatial constitue le motif clé voire l'essence. S'appuyant sur une analyse narrative, cette étude examine la façon dont les espaces se construisent. Elle s'interroge sur un système qui organise le traitement de l'espace dans la fiction pour en esquisser la configuration. Réfléchissant la problématique de la description, elle étudie également l'espace dans ses rapports avec d'autres éléments constitutifs comme le temps et les personnages. Cet essai en appelant l'analyse thématique touche aux sources de la psychologie créatrice et au fond de l'imaginaire du romancier.
