Managerial Accounting Albrecht, Stice, Skou, 1998-08-01 **The Marketing / Accounting Interface** Robin Roslender, Richard M.S. Wilson, 2013-09-13 When marketing managers and financial managers join forces within any business the result can often be poor communication on financial criteria and goals The risk of this situation occurring is inevitably present when those with different professional backgrounds and roles are working in accordance with their own norms In his seminal 1956 paper on general systems theory the economist Kenneth Boulding referred to the phenomenon of

specialised ears and generalised deafness which can be seen to exist when marketing managers are financially illiterate or when financial managers lack the necessary insights to design implement and operate accounting systems which are useful to marketing managers in carrying out their roles It is increasingly difficult to attach credence to the idea of marketing managers who lack financial skills or financial managers who fail to relate to the context in which marketing managers operate Understanding the marketing accounting interface is therefore important in generating emergent properties from the interaction of marketers and accountants whereby the whole is greater than the sum of the parts The chapters in this volume seek to address this challenge This book was originally published as a special issue of the Journal of Marketing Management *Books in Print* ,1991 Readings in Management Accounting S. Mark Young,2004 A novel about freaks geeks crushes and friends and how sometimes you can be all of them at once Charlie is the freak Gloria is the freak magnet They re pretty much destined to meet And when they do sparks fly for Charlie Gloria well she just thinks he s like every other freak who feels compelled to talk to her although a little better looking than most While Charlie has his head in the clouds Gloria s got hers in a book her Freak Folio a record of every weirdo who s talked to her in the last year it s a big book But never before has she felt the pull to get to know one of them better Until now In this he said she said tale of love loss and lucky signs from the author of the ac claimed Funny Little Monkey two young strangers at a crossroads in their lives become friends by happy accident okay maybe some harmless stalking is involved and not by the person you d think and forever change each other
