

MOTOROLA FX7400

FIXED RFID READER FOR CUSTOMER-FACING ENVIRONMENTS

BUSINESS-CLASS FUNCTIONALITY IN A COMPACT, SLICK DESIGN

The Motorola FX7400 RFID Reader sets a new standard in design for indoor customer-facing and computer environments — putting best-in-class RFID features into a sleek, attractive form factor that is less than half the size of a typical fixed industrial RFID reader. With a low profile and distinctive array of integrated features and functionality, the FX7400 excels RFID read-offered for business class applications such as: item-level inventory management, IT asset management and more. This standards-based device integrates easily into your existing technology environment, delivering superior performance and simplified management. Flexible enough to support your business needs today and in the future, this RFID reader offers outstanding value with a low cost per read point, extended protection and superior total cost of ownership (TCO). And the FX7400 expands our RFID fixed reader portfolio to serve both business-class and industrial environments.

EASY TO USE, DEPLOY AND MANAGE

The FX7400 is easy to read and manage. The reader simply plugs into the desktop feature. Deployment is facilitated with the Easy-Plug II, Motorola's new reader configuration and management tool. The auto-discovery function finds (detects) devices when they are plugged

into the network, pre-defined configuration files simplify setup for various applications and environments and a testing tool lets you verify that your FX7400 readers are up and running and ready to start data operations. No out-of-the-box problems, integrated Power over Ethernet (PoE) gives businesses the freedom to place the FX7400 wherever it is needed most, without the hassle or cost associated with installing power outlets — ideal for the large open common areas in retail environments. LLRP Item-level reader protocol support delivers seamless integration with your existing IT infrastructure, including wireless LANs and standard middleware, such as IBM WebSphere and Microsoft SQL. And the ability to host third party applications for data verification without host deployment, allowing you to easily customize applications to meet your business needs today and tomorrow.

A SMART INVESTMENT WITH A LOW TOTAL COST OF OWNERSHIP (TCO)

With the FX7400, you get high-volume benefits — after the real-time accurate inventory visibility and a superior TCO. A choice of either one or four read/write ports lets you purchase only what you need, no more, no less. With the integrated anti-theft feature, Concept Purposes Input/Output (CPI/O) interface, there's no need to purchase, install and manage additional hardware.
