## **John McCracken Works From 1963 2011:**

*John McCracken: Works from 1963-2011* John McCracken, 2014-11-30 John McCracken occupies a singular position within the recent history of American art as his work melds the restrained formal qualities of Minimalist sculpture with a distinctly West Coast sensibility expressed through color form and finish. He developed his early sculptural work while studying painting at the California College of Arts and Crafts in Oakland in the late 1950s and early 1960s. While experimenting with increasingly three dimensional canvases the artist began to produce objects made with industrial materials including plywood sprayed lacquer and pigmented resin creating the highly reflective smooth surfaces that he was to become known for. Published on the occasion of the comprehensive presentation of McCracken's work at David Zwirner New York in 2013 this catalogue charts the evolution of the artist's diverse oeuvre encompassing both well known and lesser seen examples of his production from the early 1960s up through his death in 2011 with a range of sculptures paintings and sketches. Featuring new scholarship by art historian Robin Clark it includes reproductions of fascinating archival and documentary material that was discovered during the curatorial process from the artist's sketches to gallery invitation cards. The early catalogue covers historic photographs as well as installation views of the exhibition. **John McCracken** Hanna Schouwink, 2013. John McCracken David Zwirner (Gallery), 2008. Made in Los Angeles Rachel Rivenc, 2016-04-01. In the 1960s a group of Los Angeles artists fashioned a body of work that has come to be known as the LA Look or West Coast Minimalism. Its distinct aesthetic is characterized by clean lines simple shapes and pristine reflective or translucent surfaces and often by the use of bright seductive colors. While the role of materials and processes in the advent of these truly indigenous Los Angeles art forms has often been commented on it has never been studied in depth until now. *Made in Los Angeles* focuses on four pioneers of West Coast Minimalism Larry Bell Robert Irwin Craig Kauffman and John McCracken whose working methods often borrowed from other industries featured the use of synthetic paints and resins as well as industrial processes to create objects that are both painting and sculpture. Bell for example coated plate glass with films of material that alter the way the light is absorbed reflected and transmitted while Kauffman employed a process usually reserved for commercial signs for his work. McCracken coated plywood with fiberglass then spray painted it with countless layers of automotive paints and Irwin spray painted discs of hammered aluminum or vacuum formed plastics. The detailed study of each artist's work is presented in the context of the emergence of modern art in Los Angeles the burgeoning mid twentieth century gallery scene and the light infused LA cityscape. Initially undertaken as part of the Pacific Standard Time Art in L A 1945 1980 initiative this volume combines technical art history and scientific analysis to investigate conservation issues associated with the work of these artists which are often emblematic of issues in the conservation of contemporary art in general. **John McCracken** Andrea Bellini, Daniel Baumann, 2011. The first complete catalogue on John McCracken's work. John McCracken Berkeley California 1934 is an internationally famous American artist known principally for what he
