while ignoring academics to get into top universities Why the Korean Basketball League banned tall players to help save the sport The story and the surprising neuroscience behind how Korea became the global hotbed of professional video gaming The misconceptions of Tiger Parenting and how a hands on parenting style is viewed differently by East Asian children than Western kids Why the country's best speed skater was forced to defect to Russia How the national men's and women's hockey teams willed themselves from obscurity to compete with the world's best at the 2018 Olympics Full of extraordinary stories of athletes and their dedicated parents the book explores the science and history behind one of the most interesting sports cultures in the world Seoul Ambition will change the way you think about talent and creativity the power of community and national identity and the fascinating process of creating world class athletes *Flip-Flop* Caroline Knowles, 2014-05-20 Shortlisted for the BBC Radio 4 Thinking Allowed Award for Ethnography 2015 This book follows the global trail of one of the world's most unremarkable and ubiquitous objects flip flops Through this unique lens Caroline Knowles takes a ground level view of the lives and places of globalisation's back roads providing new insights that challenge contemporary accounts of globalisation Rather than orderly product chains the book shows that globalisation along the flip flop trail is a tangle of unstable shifting ad hoc and contingent connections This book displays both the instabilities of the chains and the complexities personal topographies and skills with which people navigate these global uncertainties Flip Flop provides new ways of thinking about globalisation from the vantage point of the shifting landscape crossed by a seemingly ordinary and everyday commodity *The Burton Holmes Lectures: Seoul, capital of Korea.
