Russia-EU Relations and the Common Neighborhood Irina Busygina, 2017-07-20 Examining Russia EU relations in terms of the forms and types of power tools they use this book argues that the deteriorating relations between Russia and the EU lie in the deep differences in their preferences for the international status quo These different approaches combined with economic interdependence and geographic proximity means both parties experience significant difficulties in shaping strategy and formulating agendas with regards to each other The Russian leadership is well aware of the EU s authority orientation but fails to reliably predict foreign policy at the EU level whilst the EU realizes Russia s coercive orientation in general but cannot predict when and where coercive tools will be used next Russia is gradually realizing the importance of authority while the EU sees the necessity of coercion tools for coping with certain challenges The learning process is ongoing but the basic distinction remains unchanged and so their approaches cannot be reconciled as long as both actors exist in their current form Using a theoretical framework and case studies including Belarus Georgia and Ukraine Busygina examines the possibilities and constraints that arise when the power of authority and the power of coercion interact with each other and how this interaction affects third parties

The Martin Presence Peter Beilharz,Trevor Hogan,Sheila Shaver,2015-06-01 Jean Martin was a pioneer of sociology inventing a version of the discipline that was uniquely suited to Australia in the post war period

Jean Isobel Martin 1923-79 made herself a sociologist before the discipline was established in Australia. Regarded as a founder of Australian sociology, her writing, teaching, and policy helped shape Australia in the period of economic growth and social development that followed World War II. *The Martin Presence* is a biography that examines her life and her work across the concerns of the time: the needs of country towns, the factory work floor, families, and urban structure, poverty, and inequality, education, and immigration, and explores her far-reaching influence on the social sciences in Australia. *Yearbook of International Organizations 2014-2015, Volumes 1a & 1b (Set)* Union of International Associations, 2014-06-16. Theatre History Studies 2014, Vol. 33 Elizabeth Reitz Mullenix, 2014-12-15. Volume 33 of *Theatre History Studies* explores war. War is a paradox: horrifying and compelling, galvanizing and devastating, a phenomenon that separates and decimates while at the same time creating and strengthening national identity and community bonds. War is the stuff of great drama. War and theatre is a subject of increasing popularity among scholars of theatre. The essays in this special edition of *Theatre History Studies* bring together a unique collection of work by thirteen innovative scholars whose work explores such topics as theatre performances during war times, theatre written and performed to resist war, and theatre that fosters and promotes war. The contributors to this volume write poignantly about nationhood and about how war, through both propaganda and protest, defines a people. The contributors also delve into numerous fascinating themes that transcend time, peoples, nations, and particular conflicts: the foundations of nationalism and the concepts of occupied and occupier, nostalgia and utopia, and patriotism and revolution. These essays survey a march of civil and international wars spanning three centuries. Arranged chronologically, they invite comparisons between themes and trace the development of the major themes of war. Ideas manifest in the theatre of one period recall ideologies and propaganda of the past, reflect those of the present, and anticipate wars to come. *Public Health Reports*, 2016.
