Rhino Poaching Janina Naef, 2016 Rhino horn is very popular in Asia as it is a status symbol and used as medicine That is one reason why the number of these animals is decreasing continuously In 2007 13 rhinos were poached in South Africa while in 2015 the number increased to 1175 rhinos This Matura Paper deals with problems of rhino poaching in South Africa It poses into the question if it is still possible to see rhinos in the future and examines what should be done to save this species from extinction Therefore 5 theses has been stated which consist of political financial protection measures and enlightenment of local and Asian people Thereby an interview has been conducted with a conservationist in addition to research in a volunteering project in South Africa regarding these theses The results prove the problems already stated If there are no changes in one of these problems the

Economic Incentives and Poaching of the One-Horned Indian Rhinoceros in Nepal Mahesh Poudyal,2005 Despite a relatively successful conservation programme for the endangered one horned rhinoceros in the National Parks of the Terai region poaching remains one of the major threats to its survival in Nepal In recent years there has been an alarming rise in the number of rhinos poached over 100 rhinos were taken in and around the Royal Chitwan National Park RCNP between 1998 and 2003 Although rhino poaching levels are influenced by the price of rhino horn on the international black market amongst a host of other socio economic factors there have not been any attempts to study the reasons behind poaching in Nepal using econometric models developed and applied elsewhere This study uses econometric models to explain changes in the level of poaching in the RCNP over a 30 year period Factors that are thought to influence the number of rhinos poached in the RCNP include i rhino population ii effectiveness of anti poaching measures iii penalties for poaching iv availability of alternative economic opportunities i e opportunity costs of poaching and v the price of rhino horn The results indicate that anti poaching units APUs in their original organisational and operational form were highly successful in controlling the level of poaching in the RCNP Furthermore the availability of local economic opportunities seemed to reduce the level of poaching significantly However the penalties imposed on the convicted poachers were found to have little or no effect on the level of rhino poaching in the RCNP The results also indicate a sharp rise in the number of rhinos poached during the years of the Maoist insurgency in the country compared to the years before Although the analysis is still very simplistic it provides valuable insights into the factors that have affected the level of poaching in the RCNP over the years It is hoped that these insights will be helpful in formulating effective policies to tackle rhino poaching especially in and around the RCNP where Nepal s largest population of one horned rhinoceros is found Four Years for the Rhino Kamalajaṅga Kumāvara,2012

Ivory, Horn and Blood Ronald Orenstein,2013-07-25 Meticulous research chilling facts an important and much needed book Dr Jane Goodall DBE Founder The Jane Goodall Institute If it is understanding you seek turn these pages Virginia McKenna OBE Founder The Born Free Foundation If you care about elephants and rhinos and the poaching onslaught that threatens their extinction in the wild this is the book for you Ian Redmond OBE Ambassador UN Great Apes Survival Program As recently as ten years ago out of every ten African elephants that died four fell at the hands of poachers The figure today is eight Over sixty percent of Africa s Forest Elephants have been killed by poachers since the turn of the century Rhinoceroses are being slaughtered throughout their ranges The Vietnamese One horned Rhinoceros and the Western Black rhino have become extinct in the last decade and the Northern White Rhinoceros the largest of them all barely survives in captivity This alarming book tells a crime story that takes place thousands of miles away in countries that few of us may visit But like the trade in illegal drugs the traffic in elephant ivory and rhinoceros horn has far reaching implications not only for these

endangered animals but also for the human victims of a world wide surge in organized crime corruption and violence Since the worldwide ban on commercial ivory trade was passed in 1989 after a decade that saw half of Africa s elephants slaughtered by poachers Ronald Orenstein has been at the heart of the fight Today a new ivory crisis has arisen fuelled by internal wars in Africa and a growing market in the Far East Seizures of smuggled ivory have shot up in the past few years Bands of militia have crossed from one side of Africa to the other slaughtering elephants with automatic weapons A market surge in Vietnam and elsewhere has led to a growing criminal onslaught against the world s rhinoceroses The situation for both elephants and rhinos is dire **Conservation of Rhinos and Reauthorization of the Sikes Act** United States.
