**The War for Ukraine** Mick Ryan, 2024-08-13 The Russo Ukraine War is a vital learning opportunity for military strategists across the globe The first and clearest lesson to be gleaned from it is this the soundness of a military's strategy and the nimbleness with which it can adapt to unforeseen circumstances are the two most important factors in deciding victory or defeat The War for Ukraine analyzes the war through these twin lenses of strategy and adaptation detailing how each army has succeeded or failed to plan for and adapt to this twenty first century war Author Mick Ryan examines the foundations of Ukrainian and Russian strategy for their ongoing war looking back over several decades to reveal how both sides have evolved their military strategy and force structure Each has undertaken institutional level reforms of their military and national security enterprises in the decade leading up to this war But because the emergent behavior of military forces after fighting begins cannot be fully predicted these prewar reforms only constitute a starting point for adaptation during the war Part I of the book covers the role of strategic leadership with a focus on evolution of strategy since February 2022 From there the second part of the book delves into how the Ukrainians and Russians have adapted their tactics organizations operational approaches and strategic foundations for war making throughout the conflict Central to this discussion are the ways that regardless of cutting edge technology human elements have remained a crucial deciding factor in Ukraine Ryan shows how good leadership allows a nation to navigate the ambiguity and uncertainty of conflict while poor leadership leaves it vulnerable to surprises Likewise The War for Ukraine offers case studies of the importance of an institution's ability to nurture and reward human learning as it relates to combat The book provides strategists policymakers and military leaders with a basis from which to plan for constant adaption in military organizations General readers of contemporary global conflict will also find The War for Ukraine of great interest

Oil Powers Victor McFarland, 2020-07-14 Since the mid twentieth century the United States and Saudi Arabia have built a close but often troubled alliance In this critical history Victor McFarland reveals the deep ties binding the leaders of the two nations Connecting foreign relations and domestic politics McFarland challenges the view that the U S Saudi alliance is the inevitable consequence of American energy demand and Saudi Arabia's huge oil reserves Oil Powers traces the growth of the

alliance through a dense web of political economic and social connections that bolstered royal and executive power and the national security state McFarland shows how U S and Saudi elites collaborated to advance their shared interests against rivals at home and abroad During the 1970s as higher oil prices enriched the Saudi government destabilized the American economy and changed the balance of power in the Middle East leaders of both countries responded by consolidating their alliance Facing objections from their own people Washington and Riyadh chose to shield their partnership from public oversight and accountability While American support empowered the Saudi royal family and helped the kingdom expand its influence across the Middle East Saudi elites also encouraged a rightward shift in U S foreign and economic policy with profound long term effects Oil Powers reveals the role of the U S Saudi alliance in laying the groundwork for American military involvement in the Middle East and the entrenchment of a global order fueled by oil

**Checking the Costs of War** Sarah E. Kreps, Douglas L. Kriner, 2025-02-25 A thorough reassessment of how domestic factors do and do not constrain the use of American military force abroad in the early twenty first century More than two decades have passed since the September 11th terrorist attacks resuscitated debates about the imperial presidency within the United States During that same time the United States has fought costly and inconclusive wars in Iraq and Afghanistan pivoted to the Pacific to counter China and pulled its gaze back to Europe and the Middle East in response to wars in Ukraine and Gaza Moreover new technologies and ways of funding and staffing wars have made the costs of war less visible to the public while polarization has increased and a new legal doctrine of presidential power has gained force Against this backdrop Checking the Costs of War reassesses how domestic factors have both constrained and failed to constrain the use of military power across different contexts and over time Richly empirical chapters explore the varying effects of different kinds of potential checks legislative public opinion and bureaucratic Collectively chapters offer new insight into the prospects for war and peace today

*Market Civilizations* Quinn Slobodian, Dieter Plehwe, Esra Elif Nartok, Aditya Balasubramanian, Tobias Rupprecht, Isabella M. Weber, Antina von Schnitzler, Jeremy Walker, Paulo Chamon, Karin Fischer, Mila Jonjic, Nenad Pantelic, Lars Mjøset, Reto Hofmann, Jimmy Casas Klausen, 2022-05-24 A deep investigation of neoliberalism s proselytizers in Eastern Europe and the Global South Where does free market ideology come from Recent work on the neoliberal intellectual movement around the Mont Pelerin Society has allowed for closer study of the relationship between ideas interests and institutions Yet even as this literature brought neoliberalism down to earth it tended to reproduce a European and American perspective on the world With the notable exception of Augusto Pinochet s Chile long seen as a laboratory of neoliberalism the new literature followed a story of diffusion as ideas migrated outward from the Global North Even in the most innovative work the cast of characters remains surprisingly limited clustering around famous intellectuals like Milton Friedman and Friedrich Hayek Market Civilizations redresses this absence by introducing a range of characters and voices active in the transnational neoliberal movement from the Global South and Eastern Europe This includes B R Shenoy an early member of the Mont Pelerin Society

from India who has been canonized in some circles since the Singh reforms Manuel Ayau another MPS president and founder of the Marroqu n University an underappreciated Latin American node in the neoliberal network Chinese intellectuals who read Hayek and Mises through local circumstances and many others Seeing neoliberalism from beyond the industrial core helps us understand what made radical capitalism attractive to diverse populations and how often disruptive policy ideas went local

*War on Peace* Ronan Farrow, 2018-04-24 A New York Times Wall Street Journal Los Angeles Times and IndieBound bestseller Finalist for the Colby Award A new revised and updated edition of a modern classic of foreign policy a harrowing exploration of the collapse of American diplomacy and the abdication of global leadership by the winner of the 2018 Pulitzer Prize in Public Service US foreign policy is undergoing a dire transformation forever changing America s place in the world Institutions of diplomacy and development are bleeding out after deep budget cuts the diplomats who make America s deals and protect its citizens around the world are walking out in droves Offices across the State Department sit empty while abroad the military industrial complex has assumed the work once undertaken by peacemakers We re becoming a nation that shoots first and asks questions later In an astonishing journey from the corridors of power in Washington DC to some of the most remote and dangerous places on earth Afghanistan Somalia and North Korea among them acclaimed investigative journalist Ronan Farrow illuminates one of the most consequential and poorly understood changes in American history His firsthand experience as a former State Department official affords a personal look at some of the last standard bearers of traditional statecraft including Richard Holbrooke who made peace in Bosnia and died while trying to do so in Afghanistan Drawing on recently unearthed documents and richly informed by rare interviews with whistle blowers a warlord and policymakers including every living former secretary of state from Henry Kissinger to Hillary Clinton to Rex Tillerson and now updated with revealing firsthand accounts from inside Donald Trump s confrontations with diplomats during his impeachment and candid testimonials from officials in Joe Biden s inner circle *War on Peace* makes a powerful case for an endangered profession Diplomacy Farrow argues has declined after decades of political cowardice shortsightedness and outright malice but it may just offer America a way out of a world at war
