Provided by publisher **Famines in European Economic History** Declan Curran, Lubomyr Luciuk, Andrew Newby, 2015-04-24. This volume explores economic, social, and political dimensions of three catastrophic famines which struck mid-nineteenth and early twentieth-century Europe: the Irish Famine (An Gorta Mór) of 1845-1850, the Finnish Famine (Suuret Nälkävuodet) of the 1860s, and the Ukrainian Famine (Holodomor) of 1932-1933. In addition to providing new insights into these events on international, national, and regional scales, this volume contributes to an increased comparative historiography in historical famine studies. The parallel studies presented in this book challenge and enhance established understandings of famine tragedies, including famine causation and culpability, social and regional famine vulnerabilities, core-periphery relationships between nations and regions, degrees of national autonomy and self-sufficiency, as well as famine memory and identity. *Famines in European Economic History* advocates that the impact and long-term consequences of famine for a nation should be understood in the context of evolving geopolitical relations that extend beyond its borders. Furthermore, regional structures within a nation can lead to unevenness in both the severity of the immediate famine crisis and the post-famine recovery. This book will be of interest to those in the fields of economic history, European history, and economic geography.

Studies in Intelligence, 2013 Collective Management of Music Copyright Qinqing Xu, 2023-04-17. Two of the objectives of the Chinese Copyright Law are to protect the copyright of authors to their literary and artistic works and encourage the creation and dissemination of works. In practice, however, in spite of the existence of the Music Copyright Society of China (MCSC) that was established to assist with exercising copyright, music creators in China remain in need of help to protect and manage their fragmented copyright. The MCSC was the first collective management organisation (CMO) in mainland China and is the only CMO in the field of musical works. While there is a large music industry and copyright business in China, the MCSC only had 11,356 members at the end of 2021. The third amendment of the Chinese Copyright Law was initiated in 2011 and came into effect in June 2021 after a long debate for almost ten years. The discussion of the

third amendment has highlighted the controversial topic of collective management of copyright This book explores the adequacy of the MCSC as an intermediary representing rights for music creators The main argument developed in this study is that the work of the MCSC for individual composers and lyricists is hampered by shortcomings in the regulatory regime as well as by a lack of members rights to participate in the management of their own rights and by the ineffective international cooperation between the MCSC and other musical CMOs overseas The analysis is undertaken through a case study approach comparing the collective management systems of music copyright in China the United States and Australia and addressing the question of how musical CMOs operate in these countries Specifically three perspectives are examined the regulatory systems designed to limit the misuse of those CMOs monopoly members rights in the organisations and international cooperation between these CMOs Overall the main findings of this book suggest that the MCSC in China could work more effectively to protect music creators interests In contrast although the operational frameworks of the American Society of Composers Authors and Publishers ASCAP and the Broadcasting Broadcast Music Inc BMI in the United States and the Australasian Performing Right Association APRA in Australia are not perfect models the systems in these two countries may at least provide reference points for potential improvement of the regime of the MCSC The research recommends three courses of action strengthening the regulatory design overseeing the MCSC s monopoly clarifying the relationship between the MCSC and its members while providing the members with the right to manage their own copyright and improving the international cooperation between the MCSC and CMOs in other countries
