**Asian American Sporting Cultures** Stanley I Thangaraj, Constancio Arnaldo, Christina B Chin, J. Jack Halberstam, 2016-04-05 Delves into the long history of Asian American sporting cultures considering how identities and communities are negotiated on sporting fields Through a close examination of Asian American sporting cultures ranging from boxing and basketball to spelling bees and wrestling the contributors reveal the intimate connection between sport and identity formation Sport plays a special role in the processes of citizen making and of the policing of national and diasporic bodies It is thus one key area in which Asian American stereotypes may be challenged negotiated and destroyed as athletic performances create multiple opportunities for claiming American identities This volume incorporates work on Pacific Islander South Asian and Southeast Asian Americans as well as East Asian Americans and explores how sports are gendered including examinations of Asian American men s attempts to claim masculinity through sporting cultures as well as the Orientalism evident in discussions of mixed martial arts as practiced by Asian American female fighters This American story illuminates how marginalized communities perform their American ness through co ethnic and co racial sporting spaces

Love and War Tom Digby, 2014-10-28 Ideas of masculinity and femininity become sharply defined in war reliant societies resulting in a presumed enmity between men and women This so called battle of the sexes is intensified by the use of misogyny to encourage men and boys to conform to the demands of masculinity These are among Tom Digby s fascinating insights shared in *Love and War* which describes the making and manipulation of gender in militaristic societies and the sweeping consequences for men and women in their personal romantic sexual and professional lives Drawing on cross cultural comparisons and examples from popular media including sports culture the rise of gonzo and bangbus pornography and internet trolls Digby describes how the hatred of women and the suppression of empathy are used to define masculinity thereby undermining relations between women and men sometimes even to the extent of violence Employing diverse philosophical methodologies he identifies the cultural elements that contribute to heterosexual antagonism such as an enduring faith in male force to solve problems the glorification of violent men who suppress caring emotions the devaluation of men s physical and emotional lives an imaginary gender binary male privilege premised on the subordination of women and the use of misogyny to encourage masculine behavior Digby tracks the collateral damage of this disabling misogyny in the lives of both men and women but ends on a hopeful note He ultimately finds the link between war and gender to be dissolving in many societies war is becoming slowly de gendered and gender is becoming slowly de militarized *Children's Software Revue*, 1993 *The New Trail of Tears* Naomi Schaefer Riley, 2021-11-30 If you want to know why American Indians have the highest rates of poverty of any racial group why suicide is the leading cause of death among Indian men why native women are two and a half times more likely to be raped than the national average and why gang violence affects American Indian youth more than any other group do not look to history There is no doubt that white settlers devastated

Indian communities in the 19th and early 20th centuries But it is our policies today denying Indians ownership of their land refusing them access to the free market and failing to provide the police and legal protections due to them as American citizens that have turned reservations into small third world countries in the middle of the richest and freest nation on earth The tragedy of our Indian policies demands reexamination immediately not only because they make the lives of millions of American citizens harder and more dangerous but also because they represent a microcosm of everything that has gone wrong with modern liberalism They are the result of decades of politicians and bureaucrats showering a victimized people with money and cultural sensitivity instead of what they truly need the education the legal protections and the autonomy to improve their own situation If we are really ready to have a conversation about American Indians it is time to stop bickering about the names of football teams and institute real reforms that will bring to an end this ongoing national shame
