FCC Record United States. Federal Communications Commission, 2016 The eBook Revolution Kate Sheehan, 2013-01-03 The book ecosystem is radically changing and libraries must change with it This book tackles the controversial discussion about eBooks and explores librarian driven solutions and visions for the future of libraries in the 21st century The eBook Revolution A Primer for Librarians on the Front Lines is exactly what its title promises an essential resource for librarians facing the formidable task of coordinating the library wide transition to eBooks and fielding questions from patrons about eBooks on a daily basis After an introduction that covers the basics of eBooks and current eBook technology the author puts things into perspective documenting the changes that have occurred over the past decade She also delves into important eBook issues identifying librarian driven solutions and providing glimpses of what libraries in the near future will likely be like The book examines perennially critical issues such as accessibility resource sharing and the digital divide within the context of eBook technology and provides a clear framework for discussing eBooks thereby enabling readers to make informed decisions regarding their own organizations Invent and Wander , 2020-11-17 In Jeff Bezos s own words the core principles and philosophy that have guided him in creating building and leading Amazon and Blue Origin In this collection of Jeff Bezos s writings his unique and strikingly original annual shareholder letters plus numerous speeches and interviews that provide insight into his background his work and the evolution of his ideas you ll gain an insider s view of the why and how of his success Spanning a range of topics across business and public policy from innovation and customer obsession to climate change and outer space this book provides a rare glimpse into how Bezos thinks about the world and where the future might take us Written in a direct down to earth style Invent and Wander offers readers a master class in business values strategy and execution The importance of a Day 1 mindset Why it s all about the long term What it really means to be customer obsessed How to start new businesses and create significant organic growth in an already successful company Why culture is an imperative How a willingness to fail is closely connected to innovation What the Covid 19 pandemic has taught us Each insight offers new ways of thinking through today s challenges and more importantly tomorrow s and the never ending urgency of striving ahead never resting on one s laurels Everyone from CEOs of the Fortune 100 to entrepreneurs just setting up shop to the millions who use Amazon s products and services in their homes or businesses will come to understand the principles that have driven the success of one of the most important innovators of our time Invent and Wander The Collected Writings of Jeff Bezos is co published by PublicAffairs an imprint of Perseus Books and Harvard Business Review Press **Type Matters** Christopher Scott Wyatt, Danielle Nicole DeVoss, 2017-09-01 Pending Consumerism and Prestige Anthony Enns, Bernhard Metz, 2022-07-05 This anthology explores the relationships and interdependencies between literary production and distinctions of taste by examining how the material aspects of literary texts such as the cover binding typography and paper stock reflect or even determine their cultural status In many cases for

example the distinctions between highbrow and lowbrow taste have little to do with the content of the texts themselves as books often function as markers of socioeconomic status like clothing or home decor One might even go so far as to say that the concept of literary taste is more closely related to fashion sense than critical judgment The anthology seeks to address this claim by examining how the tensions between consumerism and prestige reflect fundamental historical changes with regard to the development of technology literacy and social power

Ambient Literature Tom Abba, Jonathan Dovey, Kate Pullinger, 2020-11-30 This book considers how a combination of place based writing and location responsive technologies produce new kinds of literary experiences Building on the work done in the Ambient Literature Project 2016-2018 this book argues that these encounters constitute new literary forms in which the authored text lies at the heart of an embodied and mediated experience The visual sonic social and historic resources of place become the elements of a live and emergent mise en scene Specific techniques of narration including hallucination memory history place based writing and drama as well as reworking of traditional storytelling forms combine with the work of app and user experience design interaction software authoring and GIS geographical information systems to produce ambient experiences where the user reads a textual and sonic literary space These experiences are temporary ambiguous and unpredictable in their meaning but unlike the theatre the gallery or the cinema they take place in the everyday shared world The book explores the potentiality of a new literary form produced by the exchange between location aware cultural objects writers and readers This book and the work it explores lays the ground for a new poetics of situated writing and reading practices
