**L'invention de la France** Emmanuel Todd, 1981      **The History and Geography of Human Genes** Luigi Luca Cavalli-Sforza, Paolo Menozzi, Alberto Piazza, 1994 By mapping the worldwide geographic distribution of the genes the scientists are now able to chart migrations and in exploring genetic distance devise a clock by which to date evolutionary history the longer two populations are separated the greater their genetic difference should be      The Anthropological Turn Jacob Collins, 2020-04-24 A close look at post 1968 French thinkers Rgis Debray Emmanuel Todd Marcel Gauchet and Alain de Benoist In The Anthropological Turn Jacob Collins traces the development of what he calls a tradition of political anthropology in France over the course of the 1970s After the social revolution of the 1960s brought new attention to identities and groups that had previously been marginal in French society the country entered a period of stagnation the economy slowed the political system deadlocked and the ideologies of communism and Catholicism lost their appeal In this time of political cultural and economic indeterminacy political anthropology as Collins defines it offered social theorists grand narratives that could give greater definition to the social by anchoring its laws and histories in the deep and sometimes archaic past Political anthropologists sought to answer the most basic of questions what is politics and what constitutes a political community Collins focuses on four influential yet typically overlooked French thinkers Rgis Debray Emmanuel Todd Marcel Gauchet and Alain de Benoist who from Left to far Right represent different political leanings in France Through a close and comprehensive reading of their work he explores how key issues of religion identity citizenship and the state have been conceptualized and debated across a wide spectrum of opinion in contemporary France Collins argues that the stakes have not changed since the 1970s and rival conceptions of the republic continue to vie for dominance Political and cultural issues of the moment the burkini for example become magnified and take on the character of an anthropological threat In this respect he shows how the anthropological turn as it figures in the work of Debray Todd Gauchet and Benoist is a useful lens for viewing the political and social controversies that have shaped French history for the last forty years      Voices of the People in Nineteenth-Century France David Hopkin, 2012-04-26 This innovative study of the lives of ordinary people peasants fishermen textile workers in nineteenth century France demonstrates how folklore collections can be used to shed new light on the socially marginalized David Hopkin explores the ways in which people used traditional genres such as stories songs and riddles to highlight problems in their daily lives and give vent to their desires without undermining the two key institutions of their social world the family and the community The book addresses recognized problems in social history such as the division of power within the peasant family the maintenance of communal bonds in competitive environments and marriage strategies in unequal societies showing how social and cultural history can be reconnected through the study of individual voices recorded by folklorists Above all it reveals how oral culture provided mechanisms for the poor to assert some control over their own destinies      Politics in the Rural Society P. **Reform and Revolution in France** Peter M. Jones, Peter Jones,1995-09-21 This textbook has been written to help teachers and students to pilot their way through the enormous and ever expanding literature on the French Revolution The author makes a conscious effort to combine social and political interpretations of the origins of the Revolution and offers a synthesis which takes full account of current debates He also seeks to restore the Revolution to its domestic environment Notwithstanding the powerful contemporary myth of rupture the author argues that the dramatic events of 1789 need to be considered alongside the reform achievements of Bourbon absolute monarchy The result is a new account of the gestation of the Revolution which is both up to date and satisfying in its range of vision

**Le communisme rural en France** Laird Boswell,2006 *Family, Gender, and Law in Early Modern France* Suzanne Desan, Jeffrey Merrick,2010-11-01 France in the New Europe Ronald Tiersky,1994 **Le Reveil D'Israel** Nadia Donna Malinovich,2000

**Histoire et informatique**,1992 **France** Philippe Pinchemel,1987 **Stereotypes and Nations** Teresa Walas,1995 Reclaiming the Sacred Suzanne Desan,1990 This is a carefully crafted piece of social history that broadly revises widely held preconceptions about ideological currents in the French Revolution The issues it raises go beyond those that might appeal only to specialists in communal action and religion historical sociologists and sociologists of culture will also find this to be an important and provocative study American Journal of Sociology

**Politics in France** Henry Walter Ehrmann,1983 **Anthropologie du conscript parisien sous le second Empire** Guy Soudjian,2008 *Re-imagining the Nation* Mette Zølner,2000 Why are national identities imagined in one way rather than in another The book analyses national imaginations as an ongoing reconstruction process in a political and social context in which several imaginations of the nation struggle to impose their conception Focusing on a fundamental element of any collective identity namely the Other the book looks at the reconstruction of national identities by actors in political debates on immigration in the late 1980s and 1990s particularly associations and political clubs which were in favour of and against the presence of immigrant minorities in their respective

countries Thus the book investigates different ways of imagining the same nation in two old European nation states namely France and Denmark which differ with regard to their nation building processes their Second World War history their memory of colonialism and their experience of immigration It is thus possible to illustrate that existing ideas of the nation and memories of historical events shape the way in which the nation could be re imagined in the 1980s and 1990s
