Young Adult Literature: From Romance to Realism, Third Edition Michael Cart, 2017-11-21 **Mars Adapting** Francis Hoffman, 2021-03-15 As Clausewitz observed In war more than anywhere else things do not turn out as we expect The essence of war is a competitive reciprocal relationship with an adversary Commanders and institutional leaders must recognize shortfalls and resolve gaps rapidly in the middle of the fog of war The side that reacts best and absorbs faster increases its chances of winning Mars Adapting examines what makes some military organizations better at this contest than others It explores the institutional characteristics or attributes at play in learning quickly Adaptation requires a dynamic process of acquiring knowledge the utilization of that knowledge to alter a unit's skills and the sharing of that learning to other units to integrate and institutionalize better operational practice Mars Adapting explores the internal institutional factors that promote and enable military adaptation It employs four cases drawing upon one from each of the U S armed services Each case was an extensive campaign with several cycles of action counteraction In each case the military institution entered the war with an existing mental model of the war they expected to fight For example the U S Navy prepared for decades to defeat the Japanese Imperial Navy and had developed carrier based aviation Other capabilities particularly the Fleet submarine were applied as a major adaptation The author establishes a theory called Organizational Learning Capacity that captures the transition of experience and knowledge from individuals into larger and higher levels of each military service through four major steps The learning change cycle is influenced he argues by four institutional attributes leadership organizational culture learning mechanisms and dissemination mechanisms The dynamic interplay of these institutional enablers shaped their ability to perceive and change appropriately **The Oxford Handbook of the Word** John R. Taylor, 2015-06-25 This handbook addresses words in all their multifarious aspects and brings together scholars from every relevant discipline to do so The many subjects covered include word frequencies sounds and sound symbolism the structure of words taboo words lexical borrowing words in dictionaries and thesauri word origins and change place and personal names nicknames taxonomies word acquisition and bilingualism words in the mind word disorders and word games puns and puzzles Words are the most basic of all linguistic units the aspect of language of which everyone is likely to be most conscious A new word that makes it into the OED is prime news when baby says its first word its parents reckon it has started to speak knowing a language is often taken to mean knowing its words and languages are seen to be related by the similarities between their words Up to the twentieth century linguistic description was mainly an account of words and all the current subdivisions of linguistics have something to say about them A notable feature of human languages is the sheer vastness of their word inventories and scholars and writers have sometimes deliberately increased the richness of their languages by coining or importing new items into their word hoards The book presents scholarship and research in a manner that meets the interests of students and professionals and satisfies the curiosity of the educated reader The
