INTRODUCTION

This instruction sheet provides you with the information required to safely own and operate your Little Giant pump. Retain these instructions for future reference.

The Little Giant pump you have purchased is of the highest quality workmanship and material, and has been engineered to give you long and reliable service. Little Giant pumps are carefully tested, inspected, and packaged to ensure safe delivery and operation. Please examine your pump carefully to ensure that no damage occurred during shipment. If damage has occurred, please contact the place of purchase. They will assist you in replacement or repair, if required.

READ THESE INSTRUCTIONS CAREFULLY BEFORE ATTEMPTING TO INSTALL, OPERATE, OR SERVICE YOUR LITTLE GIANT PUMP. KNOW THE PUMP'S APPLICATION, LIMITATIONS, AND POTENTIAL HAZARDS. PROTECT YOURSELF AND OTHERS BY OBSERVING ALL SAFETY INFORMATION. FAILURE TO COMPLY WITH THESE INSTRUCTIONS COULD RESULT IN PERSONAL INJURY AND/OR PROPERTY DAMAGE!

SAFETY GUIDELINES

During installation, follow all local electrical and safety codes, as well as the National Electrical Code (NEC) and the Occupational Safety and Health Act (OSHA).

This pump is supplied with a grounding conductor and/or grounding-type attachment plug. To reduce the risk of electric shock, ensure that it is connected to a properly-grounded, grounding-type receptacle. Do not remove the third prong from the plug.

For maximum safety, this pump should be connected to a three-prong grounded outlet equipped with a ground fault circuit interrupter (GFCI) device.

Do not use to pump flammable or explosive fluids such as gasoline, fuel oil, kerosene, etc. Pump should only be used with liquids compatible with pump component materials. Do not use in explosive atmospheres or hazardous locations as classified by the NEC, ANSI/NFPA70. Failure to follow this warning can result in property damage, personal injury, or death.

Do not handle a pump or pump motor with wet hands or when standing on a wet or damp surface, or in water. Failure to follow this warning can result in fatal electrical shock.

Make certain that the unit is disconnected from the power source before attempting to service or remove any component. If the power disconnect is out-of-sight, lock it in the open position and tag it to prevent unexpected application of power.

Periodically inspect pump and system components. Regularly check hoses for weakness or wear, making certain that all connections are secure. Perform routine maintenance as required and in accordance with the Service Instructions section.

In any installations where property damage and/or personal injury might result from an inoperative or leaking pump due to power outages, discharge line blockage, or any other reason, a backup system(s) and/or alarm should be used.

Support pump and piping when assembling and when installed. Failure to do so may cause piping to break, pump to fail, motor bearing failures, etc.

DESCRIPTION

This Little Giant condensate pump automatically removes water that drips from an air conditioner evaporative coil. The pump is controlled by a float/switch mechanism, which turns on the pump when approximately 1" of water collects in its tank, and turns off the pump when the water in the tank drains to approximately 1/2".

INSTALLATION

1. Before installing pump, allow air conditioner to cycle several times, collecting condensate in a separate container to help flush any residual oils that may remain in the system.
2. Carefully unpack the pump. Remove the cardboard packing from the motor cover air slots. Carefully slide the packing away from the pump. This packing is used to prevent switch movement during shipment.
3. Mounting the pump: The tank has two slots provided to mount the unit (Figure 1). The slots are located on the end of the tank cover. The unit should be mounted either on the side of the air conditioner unit or nearby wall. Pump must be level and the inlet must be below the coil drain. Conduit fittings are not compatible with the plastic pump housing.
4. The pump should not be installed in a manner that will subject it to splashing or spraying.

Figure 1

Figure 2

NOTE: All wiring to be done by qualified service technician. Refer to local codes in your area.

Remarque: La pose de tous les fils doit être faite par un technicien agréé. Se référer au Code local.

NOTA: Todos los cables deben colocarse por un técnico capacitado en reparaciones. Remítase a las leyes locales de su área.
