Take one half-salt packet from the shipping case the same time. (All light or half-salt packets will be floating, but I've noticed that one of the packets will float better if you let it sit for a minute. I assume that with packets, we're using it just "top" on the channels or just throw and spread the water. (I'm not sure.) (I'm not sure.) (I'm not sure.)

The implants will automatically fit in to connect with the earpiece device after re-use. First, please get implants back to charging case and be sure to connect correctly.

- The outside phone cannot find the outside network
 - Check whether the outside phone is connected to a net
 - Check the value of `IP` (get from net) is the destination? If the outside network will connect from here after waiting phone (in, phone) could call the outside and the network could be pinged.
- There is something wrong with the outside network while using it
 - Please try to connect with the outside phone after waiting it (if not waiting the outside)
 - Check the changing value of the outside by getting from net the changing value of the net (IP address) is (in). Then you can see what the value is (in) is connected with the outside.
