L'idée de l'Europe Rotraud von Kulessa, Catriona Seth, 2017-05-01 Face aux défis entre autres politiques auxquels sont confrontés différents pays européens les chercheurs dix-huitièmes ont souhaité revenir sur des expressions anciennes de valeurs partagées et les interrogations passées sur des questions qui restent souvent d'actualité. Au Siècle des Lumières nombre d'hommes et de femmes de lettres ont envisagé l'avenir du continent en particulier pour entretenir leur souhait de garantir la paix en Europe. Les textes réunis dans cette anthologie et signés des grands écrivains du temps Rousseau Montesquieu Voltaire Kant Hume ou encore Staël comme d'oublies de l'histoire présentent avec quelques excursions chronologiques de Sully Hugo les réflexions de penseurs d'un dix-huitième siècle aux bornes chronologiques tendues l'émigration et la chute de l'Empire engendrent des bouleversements nombreux sur l'Europe son histoire sa diversité mais aussi sur ce qu'ont en commun les nations qui composent dans leur variété un ensemble géographique. Ils mettent en évidence les origines historiques d'un projet d'union européenne le souhait de consolider les liens du continent avec le Maghreb ou la Turquie l'importance accordée au commerce et les inquiétudes suscitées par les sursauts de l'histoire mais aussi l'espoir placé dans les générations futures. La Société française d'étude du XVIIIe siècle l'Université d'Augsbourg l'Université d'Oxford ont généreusement contribué à la publication de ce volume. In view of the challenges many of which are political that different European countries are currently facing scholars who work on the 18th century have compiled this anthology which includes earlier recognitions of common values and past considerations of questions which often remain pertinent nowadays. During the Enlightenment many men and women of letters envisaged the continent's

future in particular when stressing their hope that peace could be secured in Europe The texts gathered here and signed by major thinkers of the time Rousseau Montesquieu Voltaire Kant Hume or Sta l for instance as well as by writers history has forgotten present the reflections with a couple of chronological extensions from Sully to Victor Hugo of authors from the long eighteenth century the French Empire and the fall of Napoleon generated numerous upheavals on Europe its history its diversity but also on what the nations which in all their diversity make up a geographical unit have in common They show the historical origins of the project of a European union the desire to consolidate the continent s ties to the Maghreb or to Turkey the importance granted to commerce and the worries engendered by history s convulsions but also the hope vested in future generations The Soci t fran aise d tude du XVIIIe si cle Augsburg University and the University of Oxford have generously contributed towards the publication of this volume
