L'invention Du Psychanalyste:

L'invention du psychanalyste Claude Dumézil, Bernard Brémont, 2010-02-18 Ce livre reprend un signifiant de Jacques Lacan pour en faire un dispositif dans l'esprit du Cartel et de la Passe Ce dont il s'agit avec le Trait du Cas c'est du d'sir d'analyste en acte pour en clarifier les zones d'ombre et le garder vivace dans la conduite des cures Claude Dumézil en témoigne dans un entretien conduit par Pierre Leroy et Radjou Soundaramourty Le recul du temps met en relief la fonction de l'intuition thorigne du d'part 1983 comme ouverture sur une clinique du psychanalyste Bernard Brémont développe le concept de fiction l'un des fondamentaux opératoires du dispositif Est ensuite présentée l'hypothèse d'un trait de structure spécifique aux sources du d'sir d'analyste Le livre propose aux analystes un dispositif pour ne pas cesser d'explorer les formations de leur inconscient l'ouvre dans leur pratique quels qu'aient été l'ancienneté ou les standards de leur formation

L'invention du psychanalyste Bernard BREMOND, Claude DUMEZIL, 2012-11-26 Ce livre reprend un signifiant de Jacques Lacan pour en faire un dispositif dans l'esprit du Cartel et de la Passe Ce dont il s'agit avec le Trait du Cas c'est du d'sir d'analyste en acte pour en clarifier les zones d'ombres et le garder vivace dans la conduite des cures Claude Dumézil en témoigne dans un entretien conduit par Pierre Leroy et Radjou Soundaramourty Le recul du temps met en relief la fonction de l'intuition thorigne du d'part 1983 comme ouverture sur une clinique du psychanalyste Bernard Brémont développe le concept de fiction l'un des fondamentaux opératoires du dispositif Est ensuite présentée l'hypothèse d'un trait de structure spécifique aux sources du d'sir d'analyste Le livre propose aux analystes un dispositif pour ne pas cesser d'explorer les formations de leur inconscient l'ouvre dans leur pratique quels qu'aient été l'ancienneté ou les standards de leur formation Claude Dumézil est psychanalyste Paris Form l'Ecole freudienne de Paris il est membre cofondateur de l'association Analyse freudienne et de la Fondation européenne pour la psychanalyse Bernard Brémont est psychanalyste Nantes membre cofondateur de l'association Analyse freudienne et membre de la Fondation européenne pour la psychanalyse Avec les contributions de Michel Gaugain Pierre Leroy Radjou Soundaramourty Bernard Tauber Danielle Treton Myriam Ziri Mise en vente le 18 février 2010

Psychanalyse: l'invention nécessaire Michel S. Levy, 2005-05-01 La qualité de la rencontre le plaisir de ce lien l'espoir sont les moteurs principaux de tout changement psychique Encore fallait-il asseoir cette évidence sur une théorie suffisamment consistante C'est ce qui est ici tenté La rencontre thérapeutique est confrontation de deux théories de vie chacune consciente et inconsciente celle du praticien et celle du patient Le pari est d'inventer une théorie suffisamment souple pour s'articuler avec la diversité des formalisations

Psychanalyse et ordre mondial : essai de psychosociologie de l'histoire pour construire le XXI^e siècle Thierry Medynski, Philippe

Court-Payen, 1992-12-31 T23:00:00+01:00 Tous repères disparus nous vivons une crise démocratique socio-économique et idéologique sans précédent Aucune réflexion philosophique n'a soutenu le débat sur l'Europe L'organisation du monde reste figée dans un conservatisme archaïque et le nouvel ordre mondial est vite apparu comme une illusion trompeuse La nécessité de

changer notre vision du monde devient chaque jour plus aigu La compréhension des complexes psychologiques donne une clef qui permet de mieux analyser les phénomènes collectifs et l'organisation de nos sociétés Les auteurs de cet essai montrent que l'organisation du monde est l'image de la conscience humaine Ainsi se dessine un vaste tableau où psychologie histoire anthropologie sociologie politique économie n'apparaissent plus comme des entités cloisonnées mais voluent en étroite interdépendance Cette démarche globale conduit les auteurs à révolutionner le concept de démocratie pour proposer une nouvelle structure politique l'image de l'homme Cette approche de la société tablit des bases sur lesquelles pourrait se construire un XXI^e siècle où émergerait un équilibre mondial bien différent du nouvel ordre mondial défendu par les apparatchiks du statu quo international

Essai sur la psychanalyse et la postmodernité Thiberge marc, 2018-01-15 La question de ce qui fait l'humain concerne la réalité psychique subjective et singulière en même temps que la réalité sociale culturelle humaine Ce manque d'articulation avec des disciplines telles que l'ethnologie et la linguistique explique le désintérêt du public face à la psychanalyse Elle ne peut rester en dehors de la construction des sciences sociales Cet ouvrage souhaite contribuer au remaniement profond de la psychanalyse en l'actualisant grâce aux pratiques et aux sciences sociales

Beckett & la psychanalyse Sjef Houppermans, 1996

Cinq leçons sur la psychanalyse de Sigmund Freud (Analyse de l'œuvre) Véronique Letournou, 2022-03-04

Une psychanalyste dans l'histoire Anne Levallois, 2007 Psychanalyste et anthropologue Anne Levallois interroge les conditions de la pratique analytique le fantasme dans le transfert les effets de la parole et du discours et plus spécifiquement les signifiants liés au féminin mais aussi les fonctions de la liberté et de l'effacement Sa lecture sans concession du mouvement psychanalytique français et de ses scissions dominées par la question de la passe et de la transmission cerne les enjeux du pouvoir dans une institution Son originalité tient aussi son intérêt pour l'histoire qu'elle confronte la psychanalyse en mettant en perspective la psychohistoire avec l'écrit des Annales Elle montre que c'est par une appréhension nouvelle de la singularité que psychanalyse et histoire se rejoignent Ainsi Anne Levallois inscrit la psychanalyse dans le champ de la connaissance entre histoire sociale et psychologie collective

An Introduction to Social Psychology Luther Lee Bernard,1926

The present Introduction to Social Psychology represents an attempt at a more synthetic type of treatment of the field than has ordinarily been given It seems to the writer that the time has arrived when schools of social psychology may properly be regarded as obsolete and the subject as a whole may be presented systematically In a sense social psychology overlaps a very large portion of social science and of psychology and education In this respect it is central to all psychological and social science disciplines This fact necessarily renders the content of social psychology voluminous It is no longer possible to treat this subject adequately in small compass The text books which have so far appeared although for the most part excellent from their several viewpoints are nevertheless but partial treatments So notably true is this that there exists a marked controversy as to what properly constitutes social psychology In Part I of this volume an attempt has been made to bring this controversy into relief for the purpose of enabling the reader to see the subject as a whole Originally the writer intended to publish this volume in five parts to make the synthetic treatment more pronounced But the length of the volume as thus planned was prohibitive and it was decided to change the plan somewhat The synthetic character of the treatment has been retained but the detailed presentation of the process of the development of personality and of self and social consciousness has been reserved for a second volume The present volume treats the subject from the standpoint of the more objective factors which integrate the personality and its responses in a social environment Throughout it has been the intention of the writer not only to make the treatment complete in itself but to keep the presentation on such a level that the volume can be used successfully as a second book in social theory following directly upon the introductory course in sociology in departments sociology If the approach to the social sciences is a psychological one the organization of this volume should make it available as an introduction to the first course in sociology economics politics and more advanced courses in history and literature in those departments which care to use it in this way That social psychology will ultimately be regarded as a necessary introduction to the several social sciences and the literatures can scarcely be doubted While the present volume is intended for undergraduate students it is hoped that it may also be used profitably in more advanced courses in combination with the more extended treatment of the subjective aspects of personality development later to be published Preface
